PARKS & RECREATION DEPARTMENT
Proposed Phase One Reopening Plan

Miami Dade County and Cities are preparing to initiate Phase One of Parks and Greenspace reopenings. These reopenings will include restrictions and modifications to park facilities, park uses and hours of operation. Not all park and greenspace facilities will reopen during phase one.

Areas to remain closed during phase one:

- Playgrounds
- Indoor Facilities
- Outdoor Exercise Equipment
- Picnic Areas / Picnicking
- Dog Parks
- Play Fields – Staff needs a more specific definition of this from the County. This may close areas within our parks, not recommended for closure at this time.
- Skate Parks
- Pools
- Volleyball Courts
- *Park Restrooms*
- *Fishing Piers*
- *Indoor 4 wall courts*
- *Basketball Courts*

The above list, except for those in italics, are included in the proposed Miami Dade County Emergency Order. The City Miami Beach recommends being stricter by including the below in the list of closures.

- Park Restrooms except for Golf Course and Tennis Centers (These areas will be controlled by staff and strict social distancing and sanitizing will be followed.)
- Fishing Piers – The South Pointe Park Pier is extremely popular, regulating social distancing on this pier is a challenge and opening the pier poses a greater health threat.
- Indoor Four Wall Courts -The County includes indoor facilities in the draft order but in an abundance of caution Miami Beach will include the four wall indoor courts at Flamingo Park in their list of restricted areas.
- Basketball Courts – The County is proposing regulating 3 players per half court, with all players having their own basketball and no sharing or touching of the other persons basketball. This would be extremely difficult to enforce. Miami Beach will include the closure of basketball courts in their list of restricted areas.
