Re: Crown Castle Fiber LLC Letter of Intent for the Installation of Small Wireless Facilities within the Historic Districts in the City of Miami Beach

Dear Ms. Tackett:

Crown Castle Fiber LLC ("Crown Castle") seeks to place a small wireless facilities network in the City of Miami Beach (the "City"), which will consist of placing fiber optic cable (underground) and nodes (utility poles containing telecommunications equipment) within the right of way. In order to meet the network coverage objectives of our customer, Crown Castle must place a portion of this network within the Historic Districts in the City. This letter will serve as support for each of those applications.

Description of the Project

As stated above, Crown Castle seeks to place a small wireless facilities network in Miami Beach in order to enhance the network capacity of its customer, which is a wireless carrier. The carrier has significant capacity issues in Miami Beach. In order to solve these capacity issues, small wireless facility nodes must be placed in the Historic Districts within the City.

Below is a brief description of the locations:

MI90XS389 – 4370 Collins Ave, Miami Beach FL 33140

MI90XS391 – 4441 Collins Ave, Miami Beach FL 33140

Therefore, in each of these instances, Crown Castle is proposing a stand-alone stealth pole. The particular location referenced above was determined by Crown Castle engineers to be the preferred location as it provides additional capacity to both the intended target while taking into account aesthetic and traffic safety criteria.

Please do not hesitate to call or contact me with any further questions or to discuss this matter.

Sincerely,

Re: Historic Review Board Application for the installation of Small Wireless Facilities - Crown Castle
Node MI9oXS391 – 4441 Collins Ave, Miami Beach, FL 33140

Dear Ms. Tackett:

Crown Castle NG East LLC (“Crown Castle”) respectfully submits this letter to the City of Miami Beach (the “City”) regarding an application seeking Historic Preservation Board (the “Board”) review and approval of small wireless facilities within the City. As part of the application package, the Board requires an explanation whenever a proposed utility pole cannot be collocated. This letter explains why the application package referred to above is for a “stand-alone” utility pole node rather than a node collocated on a pole or other infrastructure already existing in the right of way.

As you know, Florida Statutes Section 337.401 allows Crown Castle, a communications services provider, to place its communications facilities within the right of way. Although Crown Castle collocates its small wireless facilities whenever possible on poles and other infrastructure already existing in the right of way, in this case Crown Castle engineers examined each potential collocation site and determined that there was not a suitable collocation site which would have provided the wireless coverage for the intended target. In other words, the possible sites upon which Crown Castle might collocate the particular small wireless were too far away, were not in a location which would be able to provide the additional wireless capacity each small wireless facility was intended to provide, or were not sites for which Crown Castle had rights to attach.

Therefore, in each of these instances, Crown Castle is proposing a stand-alone stealth pole. The particular location referenced above was determined by Crown Castle engineers to be the preferred location as it provides additional capacity to both the intended target while taking into account aesthetic and traffic safety criteria.

Please do not hesitate to call or contact me with any further questions or to discuss this matter.

Sincerely,
