TIMELESS DESIGN YOU CAN TRUST - AND  
TAILOR.

No other Trex railing line offers the freedom to mix and match infill and rails like Trex Transcend. As strong and sturdy as its namesake decking, Transcend puts every color combination within reach. Get style-specific or eliminate the guesswork with pre-designed kits.

This composite railing won't rot, warp, peel or splinter (which trumps sanding row after row of wooden balusters any day), and it never needs painting or staining. Ever.
