All, We need help!

This is Sunday there was no pick up at all. Other times it appears that they are only raking  
We are back to square one as far out as I can see. With all the great media we got during spring break.  
Now sargassum not getting picked up. What you  
see on the picture, is today's fresh accumulation on top of yesterday's that was not picked up. Folks, we  
need to stay in front of this not chase it after the fact. I am paying over \$1000 a month in taxes and can't  
enjoy my back yard.
