Committee

TO: Mayor Dan Gelber and Members of the City Commission
FROM: Margarita Kruyff, Sustainability Committee Chair
DATE: July 2, 2021
SUBJECT: Sustainability Committee Motion

Dear Mayor and Honorable City Commission,

The Sustainability Committee met on June 24, 2021 and passed the motions below:

- In support of the City of Miami Beach's goal to reach net-zero emissions by 2050, and given that energy use in buildings accounts for more than 65% of greenhouse gas emissions in Miami Beach, the Sustainability Committee strongly recommends the Mayor and City Commission adopt a benchmarking policy for all commercial, government and multi-family properties 20,000 sq ft or above.
- The Sustainability Committee urges the Mayor and City Commission to engage with leadership from the Florida Department of Transportation (FDOT) in Q3 - 2021 to seek approval for the City and County to lead a shoreline restoration project along the Julia Tuttle Causeway with mangroves and other enhancements.

Sincerely,

Margarita Kruyff
Chairwoman, Sustainability Committee
