Tree Inventory

10 April 2020

Vincent Filigenzi Design

Miami, Florida 33132

RE: 6431 Pinetree Drive Circle, Miami Beach Fl. 33141

On Wednesday, the 31st of March 2021, I visited the above referenced location at the request of Mr. Vincent Filigenzi to inventory the trees on-site.

The site is clean and there was reasonable access to all trees. All trees are in fair to good condition unless otherwise noted. Tree disposition is noted.

Any trees to remain will need a Tree Protection Zone (TPZ) erected to provide protection during the construction. TPZ must extend a minimum of 1 foot from the trunk for each 1" of DBH. Design details provided below.

Sincerely,
