I volunteer at my schools school it may be a bit difficult for me to keep watching as I am preparing for their holiday parties this week.

My final thoughts and feel free to call me. I hope no more trees are wasted and that it doesn't cost us owners funds. I hope they place a big enough shade that will at least cover the slide area. And I hope that in the future any architect that makes a park in the beach or for children with disabilities steps out in the park area from 8am to 4:30pm and monitor the sun rays as well as building shade. I was sure why the park other parks have shade ours didn't. It's a shame this park is getting corroded without full use. And that the park doesn't get open at sunrise because there aren't enough park securities to open early. I have to say gets overused by young adults with no children and thankfully when the building shades the park. But it would be great to use all day.

Happy Holidays
