

The #1 sustainable bottled water packaged in a refillable aluminum container

PATH™

# sustainable innovation through a refillable bottle

## who we are

We're on a mission to make the future sustainable as the go-to bottled water that helps everyone break the addiction to single-use plastic bottled water. We're growing this revolution every day as consumer demand skyrockets for sustainable choices in bottled water packaging.

As the first 100% reusable and recyclable bottled water in a sturdy and lightweight aluminum bottle, PATH provides a sustainable solution to the single-use plastic water bottle crisis plaguing our planet. Stay hydrated with PATH still, alkaline, and sparkling options that will please health, fitness, and sustainability demands all in one refillable bottle.

Sustainability  
Environmental  
Achievement  
Leadership

PATH was the only bottled water company honored for the SEAL award in 2019, 2020, and 2021 globally.

The Seal Award is given to 50 of the most sustainable companies in the world, which have the most impactful and innovative environmental initiatives.

## co-brand program

When you join the revolution through a co-branded partnership, you're automatically adding to the impact we make every day. You are part of the revolution to clean up our beaches and educate society on ways to practice a more sustainable lifestyle. PATH currently has a strong presence in the Miami market through these impactful sustainability partnerships and amazing co-branded bottles.
