**Re: Letter of Support for the Ritz-Sagamore Project / Historic Preservation Board
Application File Nos. HPB22-0506, HPB21-0497 and HPB21-0457**

Dear Board Members,

Central Miami Beach has always been the glue holding the city together, and now it needs our help. Allowing quality residences in our high-density areas on the city edge along Collins Ave. is a sound way to begin the process of elevating the touristic and residential experience while providing a base to support the business and cultural activities so vital to our lives.

We need to change our city's image and balance our transient character with a sense of permanence, safety, and place. We need to make a statement that we stand for residents first to foster the best expression of human enjoyment and activity for all, tourists and residents alike.

We, therefore, urge you to approve the plans and investment to build quality residential dwellings by the Ritz-Sagamore group who have demonstrated their consistent contributions to the Miami Beach as a family/resident owned enterprise for many decades.

Sincerely,

Michael Ostrowski

Regional VP of HR, Highgate Miami
