OBJECTION LETTER

**Reference: 8 Century Lane - Design Review Board
Application No. DRB22-0841 10 Century Lane - Design
Review Board Application No. DRB22-0847**

Design Review Board

My name is: Maria Ugarte I am the owner of 9 Century Ln Miami Beach Fl 33139

I received the notification of the Construction of 8 and 10 Century Ln I want to draw your attention to the owners of said properties and neighbors Mrs. Raquel, the owner, has intimidated me on several occasions, offering to buy my house, which is very offensive.

First of all, this street has no exit, it is a closed street, if the firefighters, police, ambulance, have to come, it is impossible for them to enter at the same time.

We are 2 sisters with many health problems, my sister lives in a bed and in a wheelchair if this construction gives birth, our lives are at risk for him dust movement of trucks and if we have an emergency not even the ambulance can enter and I will take legal action including the city for allowing this negligence

The neighbors of 8 also have an irregularity that I want to denounce in front of my house at the entrance they built a wooden wall and part of the street without permission to put their garbage.

I am very afraid that I can not leave my house that their cars park that not even the garbage truck can pass and they block my entrance and my garbage is not taken out for weeks.

I don't know how they have allowed to build that monstrosity of a house in 11th Century Ln

it has been very difficult for us.

I am strongly opposed to 2 Constructions and Variations.

Thank you for considering my request.

Maria Ugarte
