	No	7
5. Additional comments or concerns ?		
<ul style="list-style-type: none">• Allowing live music with acceptable volume levels will further enhance the dining experience for our guests.• Live entertainment would give the area a great feeling.• As a Mexican restaurant, we celebrate Cinco de Mayo every year and we would like to have a special event permit to celebrate that holiday. For example, a permit to partially close the street, and have a stage area with DJ and live mariachi entertainment.• Whenever we can set up music, please inform us asap, we need music on the patio.• We've asked residents and they would be very happy to have live music in the neighborhood. Regulating live music to a certain time will work.• Special event permits for certain holidays, sporting events, etc. could mitigate out-of-control and unpermitted entertainment from occurring in the neighborhood. Grant live entertainment privileges to business owners who are in good standing with the city.• Sunset Harbor is not a place for a nightclub, as it is family-friendly and highly residential. But the neighborhood would likely benefit from some tasteful live music during appropriate times of the day.
