

"Hello Kristen, is there anything that can be done about the insurance premiums on MB. Our buildings premiums more than doubled in 1 year. Our building has already secured financing for our 40-year recertification and are at the permitting stage. We have several older residents that have been here for more than 30 years that simply can't afford the increase and will most likely need to move. There has to be other buildings on the beach that are experiencing our same struggle. I really appreciate your time!!!"
