DIVISION 5. WEST AVENUE BAY FRONT

Section 142-842 - Location and purpose.

- (b) The purpose in identifying this subject overlay district is to provide district specific land development regulations and land-use incentives to property owners and developers who retain existing structures and/or provide new infill structures that maintain the low-scale, as-built character predominant in the existing low intensity (RM-1) and medium intensity (RM-2) underlying residential zoning district of the subject overlay area.
- (c) The intent of the overlay regulations of this division relating to minimum and maximum developable lots within the underlying RM-1 zoning district shall be to bring into conformance existing undersized lot configurations that currently do not meet code and to further regulate new infill development upon aggregated lots to an incremental lot configuration of generally one or two contiguous parcels aggregated along existing side property lines.
- (d) The overlay regulations of this division relating to residential offices or bed and breakfast inns shall only apply to existing low scale properties, which were designed and constructed to be no more than three stories in height and are located in the subject overlay district.

Applicability Clause: Any existing property which by October 1, 2021, had a building permit process number for a transient use, including bed and breakfast, shall be exempt from the limitations of the bed and breakfast use as amended by the City Commission on September 17, 2021 and reflected in subsection (d). If the permit is abandoned then the business must be in full compliance of the ordinance.

In particular, the overlay regulations shall allow the additional main permitted uses specified in this division, in the RM-1 and RM-2 of the subject area only if all the required criteria herein have been satisfied.
- (b) As specified in chapter 118, article VI, design review regulations, applications for a building permit shall be reviewed and approved in accordance with design review procedures.

-
