DATE: May 25, 2022
SUBJECT: Committee Motion—Neighborhood Improvement Project Timeline and
Budget

Dear Honorable Mayor and Commission,

The Ad Hoc Neighborhood Resilience Projects Advisory Committee met on May 24, 2022 and unanimously passed the following motion:

Due to the threats that our community is facing from flooding and water quality issues, which are exacerbated by climate change, the Committee recommends that the City provide a timeline to accompany the prioritization of neighborhood improvement projects (NIP) for the next 10 years in addition to an estimated budget. The timeline with accompanying graphic should show how it would intersect with existing CIP and GOB improvements, in order to clarify and articulate the elements that the project will include.

Sincerely,
