Good afternoon Robert,

The roads in Hibiscus Island have been raised in the past 10 years and currently comply with the City's Commission 2020 adopted new road elevation strategy which considers sea level rise (SLR) projections and tidal flooding. Please use the existing crown of road as your future crown of road for the roads (N. Hibiscus Drive & W. Palm Midway) abutting 230 Hibiscus Drive. Feel free to contact me if you have any questions.

Best regards,

MIAMIBeach

Aaron Osborne, *Project Engineer*

Public Works Department Mission

We are a multi-disciplined department comprised of Operations, Engineering, Sanitation, and Greenspace Management divisions. Together, these divisions ensure the technologically advanced design, maintenance, functionality, delivery, and cleanliness of the City's water services and resources, roadways and greenways.

We place the utmost importance in valuing our employees and ensuring all are trained to be the most reliable, knowledgeable, environmentally-conscientious and solutions-oriented professionals who provide for the City's stakeholder needs and concerns in an efficient and socially-responsible manner to foster a better, safer, and healthier community for all to live, work, and play.

Public Works Department Vision

To be the most proactive, innovative, and dependable network of highly knowledgeable professionals who are skilled in providing stakeholders optimal service and solutions to our community's most pressing infrastructure and environmental needs.
