ANALYSIS

I have been receiving some troubling feedback from residents living in the West Avenue community regarding pedestrian safety, vehicular speeds, and overall traffic flow along West Avenue and in the South of Fifth neighborhood. I would like us to explore various traffic calming options in the above areas, with the goal of enhancing safety, promoting pedestrian-friendly environments, and addressing concerns related to speed mitigation.

As part of this discussion, I would like the City Administration to be prepared to present an overview of the current traffic conditions in the above areas, including vehicular speeds, pedestrian usage, assessment of the safety of existing crosswalks and pedestrian infrastructure, and any reported safety concerns.
