IN RE: The Application for a (1) one-year Extension of Time for a previously issued Design Review Approval for the construction of a new two-story single-family home on two combined lots to replace two, one-story single family homes one of which is a pre-1942 architecturally significant home.

ORDER

The City of Miami Beach Design Review Board makes the following FINDING OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

The applicant submitted information establishing, among other things, that delays were encountered in permitting the project. The foregoing constitutes good cause for granting a one (1) year extension of time to the requirement that a Full Building Permit be obtained within eighteen (18) months of the original Design Review Approval.

IT IS HEREBY ORDERED, based upon the foregoing finding of fact and the staff report and analysis, which is adopted herein, including the recommendation, that a one (1) year extension of time to obtain a full building permit (which one [1] year period shall run from the expiration date of the original approval, which was on June 06, 2018) is granted for the above-referenced project conditioned upon the following, to which the applicant has agreed:

1. A full building permit, not a foundation or shell permit, for the project shall be obtained by June 06, 2019.
2. Construction shall commence and continue in accordance with the applicable Building Code.
3. This Extension of Time shall run concurrent with any other Extensions of Time that may be provided to the property owner as a result of actions of non-City authorities with jurisdiction over such matters.
4. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

5. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.

No building permit may be issued unless and until all conditions of approval that must be satisfied prior to permit issuance as set forth in this Order and the Order for the December 06, 2016 approval have been met. The issuance of Design Review Approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is **not** provided on the Board-approved plans, this approval does not mean that such handicapped access is not required.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order and the Final Order for the December 06, 2016 meeting. If the Full Building Permit is not issued by June 06, 2019, the Design Review Approval will expire and become null and void. If the Full Building Permit **should** expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the Design Review Approval will expire and become null and void.
