

REQUEST FOR INFORMATION RFI 2017-216-WG Compact Multi-Exercise Fitness Equipment

1. Introduction and Purpose. The City of Miami Beach, Florida (hereinafter referred to as the "City") is internationally recognized for its iconic architecture and beautiful public places. The City is also a center for outdoor fitness and recreation activities. The City desires to consider expanding its outdoor fitness options throughout the City via the installation of compact multi-exercise fitness stations. To this end, the City wishes, through this Request for Information (RFI), to receive information from manufacturers or dealers of compact outdoor fitness equipment.

Interested parties should submit detailed information on its outdoor fitness equipment options that it deems to meet the goals of expanding fitness opportunities on rights of way, street ends and small public spaces. Equipment should be platform based and have an approximate footprint of 15' X 10'. Equipment should be attractive to residents and visitors and inspire physical fitness.

Options for display boards for advertising and public service announcements may be considered, however submittals must include a non-advertising/display option.

Interested parties should submit information in accordance with Section 2 of this RFI.

Any questions regarding this RFI should be submitted to William Garviso, Procurement Contracting Officer II, at williamgarviso@miamibeachfl.gov or 305-673-7490.

The City is not required to act upon any information obtained through this RFI. The City may consider releasing a competitive solicitation as a result of the information obtained via this RFI, may pursue a procurement based on the purchase authorities expressed in its administrative code, or may take no action as a result of this RFI.

2. Response Requirements: Submit one (1) hard copy "original" marked as such, and one (1) electronic copy (CD-ROM, USB flash drive, etc.). In keeping with the City's sustainability program, RFI hard copies should be printed when possible on paper containing a high level of post-consumer recycle content. Responses should contain the following:

2.1. Respondent Information. Including:

1. Company legal/registered name.
2. Company mailing and physical address.
3. Company Website URL (if available).
4. Name of company representative that will be the primary point of contact for inquiries.
5. Contract representative's telephone number (toll-free preferred).
6. Contact representative's e-mail address.
7. Client List. Submit list of clients within the last three years for which the respondent has provided product(s) similar to those described herein.

2.2 Product Information. Submit detailed information on fitness equipment that is compact and meets the described needs of the City. Emphasis should be given to those

products that are unique or iconic in nature. Additionally, given its coastal environment, products should be composed of materials that are resistant to salt water environments.

2.3 Additional information. Identify all ordering instructions, installation requirements, sample contracts and available discounts for all products submitted.

2.4 References. Submit a list of relevant references for current installations of the proposed products. For each reference, submit name of client, client contact individual, and telephone, address and email of client contact.

3. Submittal Instructions. Responses should be submitted to:

City of Miami Beach
Procurement Department
1755 Meridian Ave., 3rd Floor
Miami Beach, Florida 33139

All Responses to RFI should be submitted by April 28, 2017 at 03:00 p.m., Eastern Standard Time (EST).

Proposal #2

Kenguru Pro

KENGURU PRO Limited Liability Company

119048 Moscow, 62 Usatcheva Street, office 23, apartment 1-9, Russian Federation

Moscow,

April 24, 2017

No.24/04/2107/1

To Miami Beach Procurement department

On information request RFI 2017-216-WG Compact Multi-Exercise Equipment

1. Respondent information:

- 1.1. KENGURU PRO Limited Liability Company.
- 1.2. 119048 Moscow, 62 Usatcheva Street, office 23, apartment 1-9, Russian Federation
- 1.3. <http://kengurupro.us>
- 1.4. Mr. Mikhail Bobryshev
- 1.5. +1(727)331-2075
- 1.6. info@kengurupro.us
- 1.7. We have worked with more than 150 different clients during the past few years. Here are just some of our clients:
 - 1.7.1. Moscow Sports Ministry, Kazakov Street 18, Moscow, Russian Federation
 - 1.7.2. City of Marseilles, 209 Lincoln Street, Marseilles, IL 61341, France
 - 1.7.3. City of Madrid, Calle Conde Duque, 9-11, Madrid, Spain
 - 1.7.4. City of Berlin, Am Karlsbad 11, 10785 Berlin, Germany
 - 1.7.5. Disneyland Paris, 77777 Marne-la-Vallée, France

2. Product information:

KENGURU PRO company produces and installs modern sports complexes for street workout, calisthenics and parkour. KENGURU PRO sports grounds for street workout, calisthenics and parkour are designed to meet international practices and recommendations of professional athletes. Quality, usability and design is our main focus.

Also, KENGURU PRO company popularizes street sports and promotes healthy lifestyle, forms attraction among young people towards street sports.

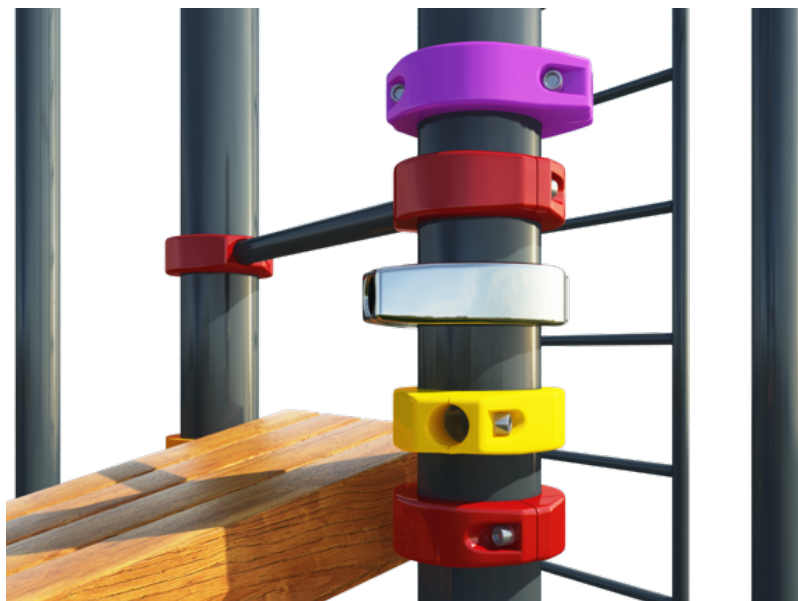

Company's authorised dealers are present in Russia, Spain, France, Switzerland, Germany, Norway, Portugal, Denmark, Belgium, Kazakhstan, Australia, Baltic states and the United Arab Emirates.

KENGURU PRO is a world leader in street workout and calisthenics equipment production.

Since the founding of the company 5 years ago, we have implemented more than 1,500 projects around the world, in different climatic zones. Our street workout equipment has been tested in the Arctic Circle, high in the mountains, in the Far East of Russia, in Siberia, in the Caribbean region (Guadeloupe), in the Persian Gulf region, in the hot coasts of Spain and in the sea fog of France. Moreover, our street workout and calisthenics equipment has passed a test of strength by the hundreds of thousands of athletes, who in some of the workout grounds are training almost around the clock. We possess cutting-edge technology and unsurpassed quality, formed with the experience and recommendations of experts and athletes. We have updated all the metal processing technologies, began to use state-of-the-art materials, perfected horizontal bar connection nodes – clamps. In 2016, we expanded the range of sports equipment: street workout grounds for the disabled, street workout equipment for gyms, horizontal bars for home and office. All of the new products can be found her.

KENGURU PRO is official equipment of Street Workout World Championship and Street Workout World Cup stages organized by World Street Workout and Calisthenics Federation www.wswcf.org

Clamps are made of high-strength alloys.

Our offer:

- Kenguru Pro platform based outdoor / indoor equipment product range and prices can be reviewed in ANNEX No. 1
- Kenguru Pro outdoor equipment product range and prices can be reviewed in ANNEX No. 2
- Kenguru Pro Para workout equipment for people in wheelchairs product range and prices can be reviewed in ANNEX No. 3
- Kenguru Pro Parkour equipment product range and prices can be reviewed in ANNEX No. 4

Equipment can be installed in any outdoor space using grass, sand, rubber flooring.

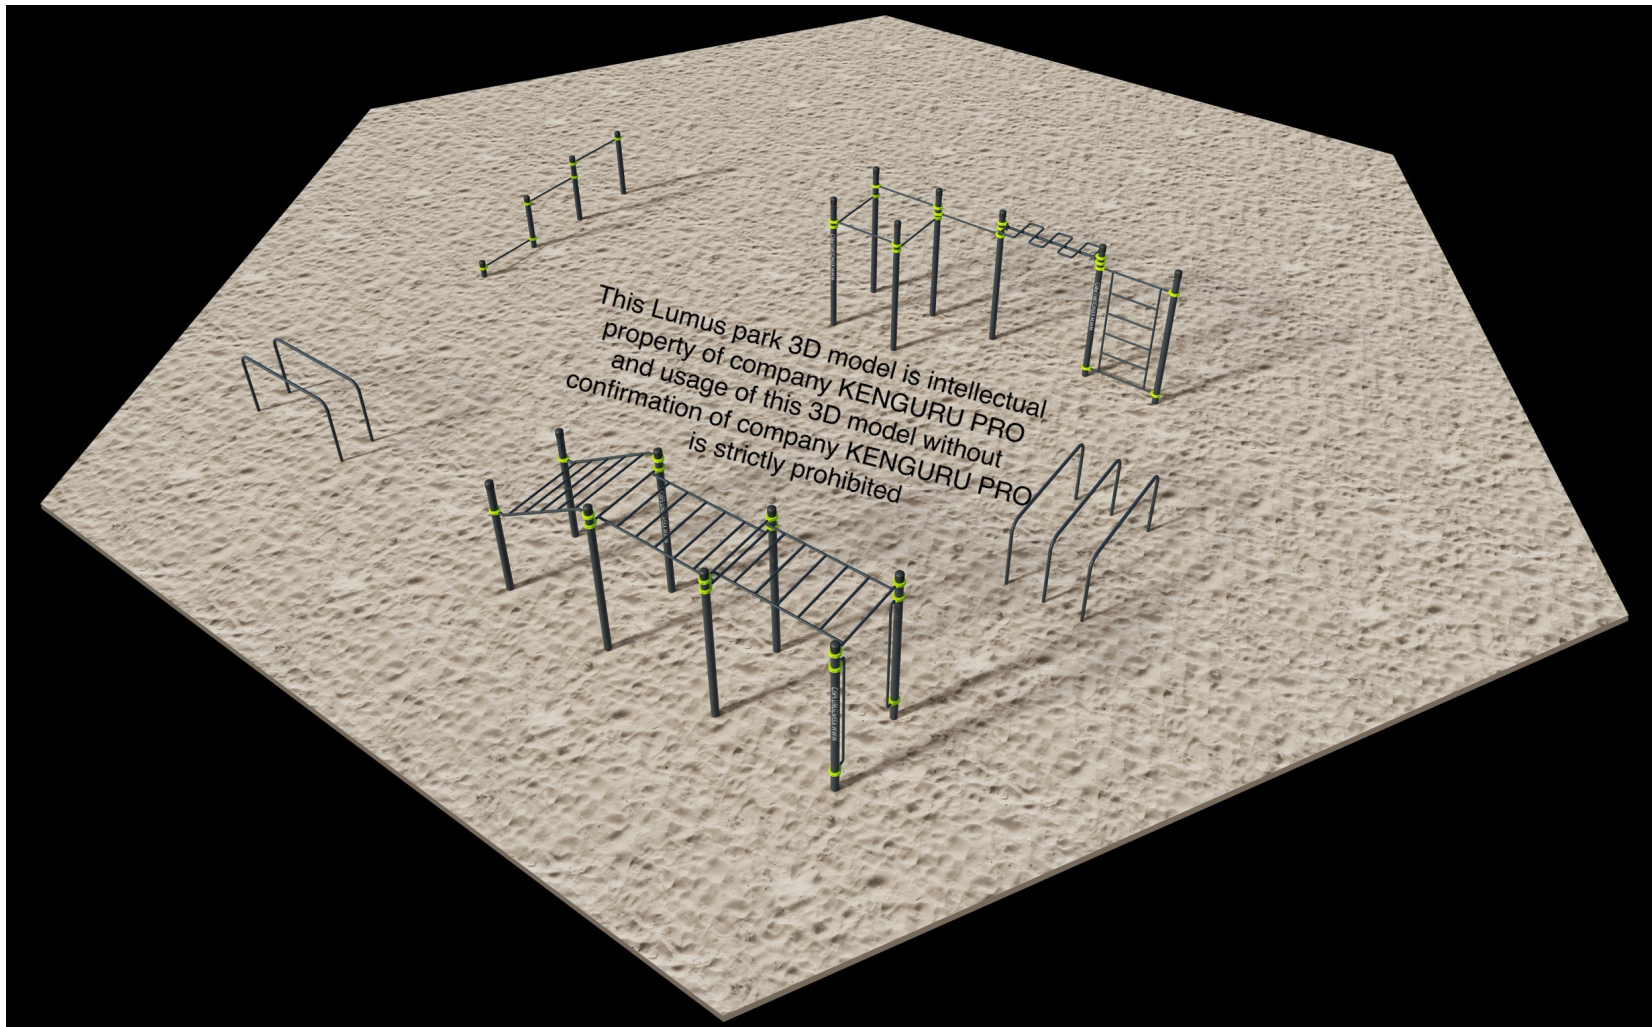

3. Additional information:

KENGURU PRO equipment ordering can be done directly from our company's headquarter in Moscow. Delivery can be provided within 30 days after submitting order. Our company is ready to work with any existing contractors already working in Miami Beach. We do provide all detailed installation manuals, but for now, our company don't provide installation works ourselves. We are manufacturer providing best price for our equipment direct orders.

Discounts are available up to 15% depending on amount of orders.

Our company as a general partner of World Street Workout and Calisthenics Federation and general sponsor of Street Workout World Cup is interested in bringing more international street workout activities to the USA. Choosing the main spot as a base for our international activities, we were looking for a place that already has street workout activities, is well known for active and sporty citizens and has a nice weather all year around for activities. For these reasons we have chosen Miami. We see a great potential in Miami to play the main role as the street workout capital of the USA. For this reason, we are interested in building AT NO COST TO MIAMI BEACH a brand new street workout park with the help of our main partner company KENGURU PRO and organizing an annual Street Workout World Cup stage there starting in 2017. We have already done research of possible park locations and we are asking for your permission to replace the existing old and unsafe street workout public park in Lumus park (599 Ocean drive, Miami Beach) and install a brand new KENGURU PRO park according to all international competition and safety standards (more details about the existing parks and more details about KENGURU PRO park

References:

KENGURU PRO don't collect references from clients, but references can be provided if necessary later. We couldn't collect any references within of request of information RFI 2017-154-WG shirt notice.

Yours sincerely,
Maxim Popov
Chairman of the KENGURU PRO

Play 4 Life

OUTDOOR FITNESS BY play4Life

CATALOG

OUTDOOR FITNESS - RECREATIONAL PRODUCTS - ACTIVE WORLD

About

Play4Life is a leading distributor of recreation products, including FITIX outdoor fitness equipment. At Play4Life, we believe that people of all ages and abilities need Play, because it is vital in maintaining a healthy and balanced life. Play comes in all forms of recreation and physical activity, and is not only important for our physical fitness, but also for our cognitive health and emotional wellbeing. All of us here at Play4Life are excited that we can have a part in creating healthy communities through Play.

Our FITIX brand of Outdoor Fitness Equipment is commercial grade and designed to withstand some of the harshest outdoor environments. It is a great solution for creating fitness areas at a park, along a walking trail, for senior living facilities, multi-family housing/communities, military training, and even a line designed specifically for children.

High Carbon Steel

Composition of 0.55%-0.95% carbon, with 0.30%-0.90% manganese. It is very strong and holds shape memory and resistance. Our manufacturing process is very similar to what you might see from some of the large domestic playground manufacturers. For cutting our steel, we utilize a CNC (Computer Numerical Control) Cutting machine, which helps us improve accuracy, efficiency and production.

Degreaser and Sand Blaster

First we use a non-phosphorus degreasing agent to remove all oils. Then comes the rotary automatic high-speed sandblasting machine. This is to de-rust any surface rust, but also helps to eliminate any welding stress and improves the adhesions of the powder coating.

Powder Coating

Our powder coating includes a UV stabilizer, thicker coat of paint over the welds, and then goes through a rigorous 800 Salt Spray Test.

Bearing Diagram

Our bearing is assembled with hydraulic equipment, which avoids being over-tightened before it ships out, is dust and waterproof, and completed with anti-theft/tampering cap.

Surface Mount

Surface mounted using any of the two broad types of anchor systems: post-installed anchors and cast-in-place anchors.

In-Ground Mount

In-ground mounted are embedded into a concrete base, approximately 6-10" below ground level.

Color Combinations

We can match over 250 custom colors. Special colors order fees may apply.

CNC Laser Cutting

Degreaser Sand Blasting

Painting Process

Flexible Design

No matter what your fitness level or goals are, we can design a fitness package to suit your needs. Whether you are wanting a cardio workout, strength-training or a combination, our design staff can create that perfect package.

Designed Tough

Fitix is commercial-grade outdoor fitness equipment, engineered to withstand harsh weather and environments. All materials are environmentally friendly PVC-free and the entire structure is backed by a premium, hassle-free warranty.

- Limited 10-year warranty on posts
- Limited 3-year warranty on moving parts and bearings
- Limited 2-year warranty on any rubber or plastic parts

Quick Ship

Many of our standard products are available to ship within 1 - 2 weeks. So whether you are in a pinch and need equipment fast to complete your project, or you just can't wait to start to fitness program, FITIX can get you the equipment you need without the long lead times. (Custom products and/or colors do not apply and may take longer.)

Want a Quote?

Two easy ways to get a quote for your Outdoor Fitness Equipment:

1. Contact your authorized FITIX representative.

They are the outdoor fitness experts. Ask how they can help you with site planning, surfacing, installation, and all other aspects of your outdoor fitness equipment building experience.

2. Not sure who your FITIX representative is? No worries! Contact us at sales@play-4life.com or 844-FIT-PLAY and we can assist you with your quote.

Plus you can place your order any day, any time.

Step-up | Hip Flexor Combo

FIT-L51 - Surface Mount Shown

Muscle Focus: Develop the quadriceps, hamstrings and calves.

Dip Station

FIT-L64 - Surface and In-Ground Mount

Muscle Focus: Chest, shoulders, upper and mid abdominals, forearms and triceps.

Air Walker (Double and Single)

SENIOR EXERCISE EQUIPMENT

MOTION™
WELLNESS SYSTEMS

Age is more than a number — it's an opportunity to serve a growing population. Motion Wellness Systems are more than a fitness concept, it is a way to improve quality of life and daily life function abilities for the aging population.

The design of Motion Wellness Systems is based upon fall assessment and fall reduction of seniors, while enhancing physical and cognitive skills and providing a great social setting. Among adults 65 and older, falls are the leading cause of injury. The systems not only help build and improve confidence, balance, and strength, needed to reduce falls, they also help perform everyday life activities, such as: walking up and down stairs, reaching for an item in a cupboard, or simply getting up out of a chair.

"Motion Wellness Systems accessories contribute to a senior's motion, strength, posture, balance, and coordination, while reducing the risk of falls and increasing overall fitness abilities¹."

XCCEFITNESS.COM 7

'On the opening day of our Wellness Plaza, senior adults surrounded us with hugs of appreciation: 'Thanks for remembering us!' and 'I can really use this!' Xccent's Motion Wellness system is first class, not only in its safety features, but also in the company's passion for its purpose. The thirty businesses who partnered with the City to make this wonderful Plaza possible are more than thrilled with the Plaza and its continuous appeal. We are excited about Phase II of our plan, and of course Xccent will be a part of it. Thank-you; thank-you; thank-you!'

Kim Zabbia, First Lady & Plaza Co-Coordinator
City of Ponchartroula, Louisiana

Build Your Own Wellness System

Create a Motion Wellness System to fit your space, budget, and exercise needs by choosing any combination of the following stations: Stair Walk, Balance Beam, Rope Bridge, and Rope Course. Build a customized system that works for you!

See standalone stations on pgs 10-11.
