Re: Revised Letter of Intent for Certificate of Appropriateness for Demolition
and Design and Relating Variances for the Property Located at 1600
Washington Avenue in Miami Beach, Florida – HPB17-0142

Dear Tom:

As you may know, this law firm represents 420 Lincoln Road Development LLC (the "Applicant"), the owner of the above-referenced property (the "Property"), which is located in the City of Miami Beach, Florida ("City"). See Exhibit A, Property Appraiser Summary. Please allow the following to serve as the Applicant's letter of intent in connection with the Applicant's request for a Certificate of Appropriateness ("COA") for demolition and design as well as related variances to allow the construction of a new, mixed-use structure at the Property.

Description of Property. The Property, which is identified by Miami-Dade County Tax Folio No. 02-3234-006-0010, is situated on the northwest corner of 16th Street and Washington Avenue, within the CD-3, Commercial High Intensity Zoning District. The Property is developed with two (2) structures on an approximately 16,200 square foot lot. The Building Cards, obtained from the City of Miami Beach Building Department, reflect that the structure to the east was originally constructed on June 19, 1953 as a "Store Building" with eight (8) store rooms and the structure to the west, previously known as 425 16th Street, was built on April 22, 1938. See Exhibit B, Building Cards. The accessory garage structure

is located at 1601 Drexel Avenue, at the northeast corner of Drexel Avenue and 16th Street, within the within the CD-3 zoning district. It identified by the Property Appraiser by Folio Number: 02-3234-006-0040 and is approximately 163,836 square feet. While the garage structure is not part of the renovation, it will serve to satisfy all of the parking requirements for the Property.

As indicated above, the Property is zoned CD-3, as are the adjacent properties to the north, east and west. To the south, the properties are zoned RO and CD-2. The Property is also located within Flamingo Park Historic District and each of the buildings is listed as a contributing structure in the City's records.

Originally, the Property was developed as a 100 foot residential lot, with a single-family home and garage structure, which was consistent with the residential character of Washington Avenue in the 1920's. The home laid vacant for a few years and in 1938 an expansion resulted in the construction of the structure to the west. The garage was relocated to a new foundation closer to the main house and the new ten (10) unit, two (2) story, apartment building, was constructed behind the single-family home. The front façade of the apartment building did not provide an entry. Rather entry to these apartments was gained by the interior side yards.

The single family home and garage structure were demolished sometime around July 1952. In its place a new commercial structure was erected. The new building provided eight (8) separate stores, and was designed to support a second floor, which was never constructed. As noted in the Historic Resources Report, which is a part of this application, over the last 47 years the structure to the east has been extensively renovated, and remodeled numerous times. As a result, the original structure has been substantially modified from its original condition.

Description of the Development Program. The Applicant has worked tirelessly with the architects to design a structure that is befitting to the prominence of Washington Avenue and the Lincoln Road corridor, while at the same time allowing for the necessary harmony with the surrounding area and is respectful of the original architecture. The Applicant proposes a ten-story residential structure with a retail component on the ground level, and all of the necessary parking to be housed within the adjacent parking garage ("Project"). In order to realize the Project, the Applicant proposes demolition of the existing structures located on the Property. The Applicant has also submitted an application to the Planning Board for a Conditional Use permit for a structure over

50,000 square feet, which is scheduled to appear before the Planning Board on September 26, 2017.

The Project will contain 134 residential units. These units will range from one (1) and two (2) bedrooms, with an average size of 1,130 gross square feet. Of the overall 151,447 gross square feet, 111,254 gross square feet will be used for residential units, 12,994 gross square feet used for ground floor retail, with the remaining square footage to be used for common elements. As part of the Project the Applicant is providing 228 parking spaces for the residential units and nine (9) parking spaces for the proposed retail use within the existing adjacent parking garage at 1601 Drexel Avenue.

This project works to derive its form and architectural language by taking cues from these original structures and those historic structures within the Flamingo Park neighborhood. The proposed design emphasizes the corner along 16th Street and Washington Avenue and creates a courtyard that is visible to passersby, creating visual interest into the building, but also paying homage to a quintessential part of historic Miami Beach architecture. The contemporary design is undoubtedly more consistent with the evolving neighborhood. Over the last twenty plus years, this area has seen a resurgence in construction and uses. Surrounding structures range from 4 to over 13 floors. In the last few years, the City has worked with the community to help this area re-emerge and regain distinction, the existing structures, are out of scale with the neighborhood and the issues arising from climate change. The Project will be significantly more suitable and appropriate for the bustling neighborhood and satisfy the needs of changing climates and sea level rise.

Requests. The Applicant is requesting a COA for the total demolition of the existing structures, approval of the new design, and variances. Specifically, the Applicant seeks the following variances:

1. A variance to exceed the maximum building height allowed. Maximum: 100'-0", Proposed: 109'-11" (measured from finish floor elevation of 8'-0").
2. A variance from the required pedestal front setback for residential uses. Proposed: 0'-0", Required: 20'-0".
3. A variance from the required pedestal interior side setback for residential uses. Proposed: 0'-0", Required: 8'-0".

4. A variance from the required pedestal sum of the side setbacks for residential uses. Proposed: 0'-0", Required: 16'-0". Where 8'-0" are required per side.
5. A variance from the required pedestal rear setback for residential uses. Proposed: 0'-0", Required: 10'-0".
6. A variance from the required tower front setback for residential uses. Proposed: 0'-0", Required: 50'-0".
7. A variance from the required tower interior side setback for residential uses. Proposed: 0'-0", Required: 19'-0".
8. A variance from the required tower street side setback for residential uses. Proposed: 0'-0", Required: 8'-0".
9. A variance from the required tower rear setback for residential uses. Proposed: Not provided, Required: 24'-4".
10. A variance from the required rear setback for a driveway. Proposed: 0', Required: 5'-0".
11. A variance from the required interior side setback for a driveway. Proposed: 0', Required: 5'-0".
12. A variance from the required width of 22' for a two-way driveway.

Satisfaction of Hardship Criteria. The Applicant's requests satisfy the hardship criteria as follows:

- (1) **Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district;**

The Applicant intends to build a resilient building in order to deal with the hardships caused by the with City's existing flooding issues and future resiliency efforts. As such, Variance No. 1 is requested in order for Applicant to prepare for future resiliency issues, including but not limited to the City's plans to raise the streets. The proposed height variance will alleviate the hardships caused by

flooding and the City's resiliency efforts as the height of the ground floor will allow the Applicant to raise the building's floor when the City raises the street.

In light of the location of the Property the Applicant is requesting to follow the built environment of the neighborhood and the predominant setbacks for corner properties. Accordingly, the Applicant requests Variance Nos. 2, 4, 6 and 8 in order to remain consistent with the predominant setbacks for corner properties. Moreover, Variance Nos. 3, 5, 7 and 9 are required to overcome the practical difficulty of meeting the required setbacks as the requested variances will allow the Applicant to remain consistent with the architectural language that derives from the area and neighborhood aesthetics.

In addition, Variance No. 10, 11 and 12 are required due to the existing alley's location. The existing alley is not being altered or modified and as a result creates a practical difficulty to meet the required driveway setbacks and width. Finally, the Property's location, the built in environment, the existing alley and resiliency efforts are all hardships requiring the requested variances.

- (2) **The special conditions and circumstances do not result from the action of the applicant;**

The need for the requested variances directly results from the Property's physical location, which is a hardship not of the Applicant's making and the practical difficulty that results from the Applicant desire to provide a structure that will improve the neighborhood, and provide architecture that is consistent with the area and pays homage to the historic architectural features of Miami Beach.

- (3) **Granting the variance requested will not confer on the applicant any special privilege that is denied by these land development regulations to other lands, buildings, or structures in the same zoning district;**

There are structures in the area, many of which have been renovated, restored and/or redeveloped. The granting of these variances is in line with the purpose and intent of the Code and does not confer any special privilege on the Applicant.

- (4) **Literal interpretation of the provisions of these land development regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of**

these land development regulations and would work unnecessary and undue hardship on the applicant;

A literal interpretation of the provisions of these land development regulations would work an unnecessary and undue hardship on the Applicant. The variances are requested in order to permit the Project's compatibility with the surrounding built environment and accommodate for future flooding and resiliency efforts.

- (5) The variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;**

These requests are the minimum necessary to allow for the construction of the Project, to ensure the project's viability and are consistent with the character of the neighborhood.

- (6) The granting of the variance will be in harmony with the general intent and purpose of these land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare; and**

These variances will not be injurious to the area or otherwise detrimental to the public welfare. These variances facilitate the enhanced utilization of the Property consistent. Additionally, these requests are consistent with the purpose and intent of the Code and promote the public welfare in the promotion of redevelopment that is in harmony with existing neighborhood.

- (7) The granting of this request is consistent with the comprehensive plan and does not reduce the levels of service as set forth in the plan.**

These variance requests are consistent with the City's comprehensive plan and do not reduce the levels of service as set forth in the plan.

As such, the Applicant requests a favorable recommendation for the abovementioned variances for the Property.

Conclusion. The Applicant's proposal is consistent with the character of the neighborhood, as well as the intent of the Code. This Property will greatly benefit from the proposed Project as will the surrounding neighborhood. We respectfully request your recommendation of approval of the Applicant's

HPB File No.: 17-0142

Planning Landscape Review

Fail 8/4/2017 8/2/2017 Nunez, Enrique

1. Remove the existing Royal Palms along Washington Avenue and plant approved shade trees at 20 feet on center including Silva Cells as part of the street tree plantings. **The Applicant has explored the removal and replacement of existing palms with canopy shade trees. The Applicant believes the existing, mature palms are healthy, in good condition, and more consistent with the area landscaping. Therefore, the Applicant does not believe that the removal and replacement would be beneficial to the neighborhood or the property.**
2. The site for this application is half of the block from Drexel to Washington Avenue on 16th Street. Explore the possibility to replace the palms that are located on Drexel Avenue and 16th street with approved street trees. **The Applicant has explored the removal and replacement of existing palms with canopy shade trees. The Applicant believes the existing, mature palms are healthy, in good condition, and more consistent with the area landscaping. Therefore, the Applicant does not believe that the removal and replacement would be beneficial to the neighborhood or the property.**
3. There is also an area on 16th street between the garage driveway to the SW corner where parking is not allowed at any time that may be used for tree plantings. **See attached landscape plans.**
4. Applicant shall study the opportunity to provide parking lane planters with Silva Cells every two parallel spaces as an opportunity to plant street trees in areas with narrow sidewalks. **The Applicant will study these alternatives and provide staff and the HPB board with the determination made with respect to same.**

HPB Zoning Review

Fail 8/2/2017 8/2/2017 Villegas, Irina

Comments issued on 8/2 Variances identified:

1. A variance to exceed the maximum building height allowed. Maximum: 100'-0", Proposed: 109'-11" (measured from finish floor elevation of 8'-0"). **Please refer to the revised plans - per height section in code, height is measured from base flood elevation plus freeboard = 13'-0" NGVD + 100'-0" allowable height + 3'-0" variance = 116'-0" NGVD.**
2. A variance from the required pedestal front setback for residential uses. Proposed: 0'-0", Required: 20'-0". **Please refer to the revised plan page E-3.**
3. A variance from the required pedestal interior side setback for residential uses. Proposed: 0'-0", Required: 8'-0". **Please refer to the revised plan page E-4, E-5, E-6.**
4. A variance from the required pedestal sum of the side setbacks for residential uses. Proposed: 0'-0", Required: 16'-0". **Please refer to the revised plan page E-4, E-5, E-6.**
5. A variance from the required pedestal rear setback for residential uses. Proposed: 0'-0", Required: 10'-0". **Please refer to the revised plan page E-4, E-5, E-6.**
6. A variance from the required tower front setback for residential uses. Proposed: 0'-0", Required: 50'-0". **Please refer to the revised plan page E-4, E-5, E-6.**

7. A variance from the required tower interior side setback for residential uses. Proposed: 0'-0", Required: 13'-4". [Please refer to the revised plan page E-4, E-5, E-6.](#)
8. A variance from the required tower street side setback for residential uses. Proposed: 0'-0", Required: 8'-0". [Please refer to the revised plan page E-4, E-5, E-6.](#)
9. A variance from the required tower rear setback for residential uses. Proposed: Not provided, Required: 24'-4". [Please refer to the plan pages E-4, E-5, E-6.](#)
10. A variance from the required rear setback for a driveway. Proposed: 0', Required: 5'-0" [While the applicant does not believe that this required a variance in light of its existing and recently approved garage site, same is note as requested variances.](#)
11. A variance from the required interior side setback for a driveway. Proposed: 0', Required: 5'-0". [While the applicant does not believe that this required a variance in light of its existing and recently approved garage site, same is note as requested variances.](#)
12. A variance from the required width of 22' for a two-way driveway. [While the applicant does not believe that this required a variance in light of its existing and recently approved garage site, same is note as requested variances.](#)

Comments

1. A variance for more than 3'-0" in height is not allowed. The maximum height of the project is 100'-0". Not applicable. [Please refer to the response to comment 1 under HPB Zoning Review.](#)
2. Provide detailed architectural plans of the existing parking garage. I only saw the parking plan, but nothing relating to the architecture of the garage. [Please refer to plan pages B-9 and B-10.](#)
3. Enlarge FAR drawings to be no more than 2 floor plans per page. [Please refer to pages B1-B8 of the final submission plans.](#)
4. Survey shall only include details and notes of the site, remove details and notes of the adjacent properties. [Please refer to the final submission plans.](#)
5. Survey is illegible. Provide lot area on survey. [Please refer to the final submission plans.](#)
6. Driveway for loading requires a setback of 5'-0" from the rear and from the interior side lot lines. [While the applicant does not believe that this required a variance in light of its existing and recently approved garage site, same is note as requested variances.](#)
7. Tandem parking for loading is not allowed. [Please refer to page E-8 of the final submission plans.](#)
8. Identify elements at the roof level plan and indicate height on elevation drawings. [Please refer to page E-8, F-3, F-5, F-6, F-7 of the final submission plans.](#)
9. All driveways shall be 22'-0" in width for two-way drive. [While the applicant does not believe that this required a variance in light of its existing and recently approved garage site, same is note as requested variances.](#)
10. Revise letter of intent to clearly identify variances requested. [Refer to the attached.](#)
11. Provide a narrative responding to staff comments. [See responses herein.](#)

HPB Plan Review N/A

Fail 7/26/2017 8/3/2017 Seiberling, James
 General Correction First Submittal: July 25, 2017
 Comments Issued: August 3, 2017
 CAP Final Submittal: August 10, 2017
 Notice to Proceed Issued: August 17, 2017
 Paper Submittal: August 21, 2017

Tentative Hearing Date: October 10, 2017

1. APPLICATION a. None. N/A

2. DEFICIENCIES IN ARCHITECTURAL PRESENTATION

- a. Provide details of the proposed gate along Washington Avenue. **Please refer to page F-7 of the final submission plans.**
- b. Provide details of the proposed projecting balconies including the final design of the perforated metal. The final perforated metal design should be reflected in the renderings. **Please refer to page F-6 of the final submission plans.**
- c. The rooftop elements are not consistent between the plans, elevations, sections and renderings. **Please refer to page E-8, F-3, F-5, F-6, F-7 of the final submission plans.**
- d. On the proposed elevation drawings, some projections appear to extend past the property line. **Please refer to the elevations in the plans which show the protrusions have been eliminated.**
- e. Clarify what treatment is proposed to be done to the garage stair tower. **Owner to install mural and/or art installation at the garage stair tower location with the Director and Board of the Bass Museum acting in an advisory capacity.**

3. DESIGN/APPROPRIATENESS COMMENTS

- a. Staff recommends that the 2-story building located on 16th Street be retained or partially retained. **Noted.**
- b. Staff recommends further development of the west façade.

HPB Admin Review. All fees will be paid upon receipt of invoice.

Fail 7/26/2017 8/3/2017 Nunez, Victor

The following fees are outstanding (tentative) and will be invoiced prior to the final paper submittal deadline:

1. Advertisement - \$1,500
 2. Board Order Recording - \$100
 3. Posting - \$100
 4. Courier - \$70
 5. Mail Label Fee (\$4 per mailing label) \$ 328
- Total Outstanding Balance = \$ 2,098

NOTE: All fees must be paid prior to August 21 (Monday). **All fees will be paid upon receipt of invoice.**

In addition to the fees and receiving approval to proceed, the following shall be provided to the Department no later than August 21 Final Paper submittal deadline:

- One (1) original application (Proper signed and notarized affidavits and Disclosures must be provided).
- One (1) original Letter of Intent.
- One (1) original set of architectural plans signed, sealed and dated.
- One (1) original signed, sealed and dated Survey.
- Any additional information/documents provided (i.e. traffic studies, concurrency, etc., etc.).
- Mailing labels must be provided including Letter certificating the labels, radius map, gummed labels, and Labels CD done with the proper Excel format specified by the Planning Department.

- 14 collated sets including copies of all the above: application form, letter of intent, plans, survey and any additional information/documents provided (plans and survey should be 11x17).
- A CD/DVD containing a digital version of the documents and plans submitted. The CD must be in the proper format specified by the Planning Department (each document must be less than 15MB). NOTE: Please make sure you identify the final submittal by the file number -when dropping it.

All will be provided upon receipt of notice to proceed with the paper submission.

[Please refer to page F-9 of the final submission plans.](#)

c. The rooftop elements are not consistent between the plans, elevations, sections and renderings.

[Please refer to page E-6, E-7, F-3, F-5, F-6, F-7 of the final submission plans.](#)

d. On the proposed elevation drawings, some projections appear to extend past the property line.

[Please refer to the elevations in the plans which show the protrusions have been eliminated.](#)

e. Clarify what treatment is proposed to be done to the garage stairtower.

[Owner to install mural and/or art installation at the garage stair tower location with the Director and Board of the Bass Museum acting in an advisory capacity.](#)

3. DESIGN/APPROPRIATENESS COMMENTS

a. Staff recommends that the 2-story building located on 16th Street be retained or partially retained.

[Noted.](#)

b. Staff recommends further development of the west façade.

[Noted.](#)
