Re: Historic Preservation Board - Variance for Angler's Boutique Resort - 600-660 Washington Avenue, Miami Beach

Dear Tom:

This law firm represents LBL Development, LLC (the "Applicant"), the owner and developer of the above-referenced parcel (the "Property"). Please consider this letter the Applicant's letter of intent in support of variances before the City's Historic Preservation Board ("HPB") for a reduction in the minimum drive aisle for the parking garage from 22' to 20' and to permit the reintroduction of a historic sign. The first variance represents an adjustment made during the building permit revision process as a result of a shift in the building to the north that occurred during the construction. The next two variances will introduce a sign to the southeast corner of the building that would recall historic signage on the Property.¹

Property Description. The total Property is on the western side of Washington Avenue between 6th and 7th Street, and is comprised of approximately 0.95 acres. The Property contains the original, restored Angler's Hotel as well as the 2005 addition. The original Angler's was constructed in 1930 and designed by architect Henry J. Maloney. It included a three-story Mediterranean Revival building and a two-story "mission" style building. It is located within the Flamingo Park Local Historic District, and it is designated as a contributing structure in the City's Historic Properties Database. The Property is located in the RM-2, Residential Multifamily, Medium Intensity zoning district. The 0.95 acres includes the vacant parcel to the south, which doubles the size of the existing development.

¹ / This second variance may not be required at time of hearing as the Property is currently being considered for a rezoning to CD-2, which will negate the need for this variance if approved.

Proposed Development Program. The Applicant seeks to construct a five-story ground floor addition to the south of the existing Angler's Hotel. The proposed addition will be 49,238 SF and contain 84 new hotel units, as well as some public space on the ground floor. Additionally, a rooftop pool deck will be constructed above the fifth floor, and located on the eastern side of the roof - closest to Washington Avenue. The existing Angler's is located mid-block, and this addition brings in the vacant parcel to the immediate south of the Property.

The ground floor of the new addition will include a relocated hotel lobby, with a lobby bar. Before entering the hotel, guests will walk through an arrival courtyard surrounded by water features and coconut palms. The ground floor also includes meeting room space and two retail units. The western portion of the second floor also includes a heavily landscaped courtyard. As noted earlier, the project construction is well under way and these variance requests are the subject of a building permit revision.

The proposed sign that is the subject of the second requested variance relates to the reintroduction of the historic Angler's sign and relocating it to the southeast corner of the Property. The sign must be relocated from its original location because the ground floor addition south of the original historic hotel would block the sign if it was placed at its original location. The variance specifically is to size as the allowable size of the sign is 73.27 square feet (98'4" size of the façade x 75%), while the Applicant is proposing 83.73 square feet. Additionally, a variance will be required to relocate a sign on a permitted wall to the parapet of the building.

Satisfaction of Hardship Criteria. Section 118-353(d) of the City's Code sets forth the hardship criteria for a variance request. The Applicant's requests satisfy all hardship criteria as follows:

- (1) Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district;**

During the construction of the hotel, it became apparent that the building was construction a little over one foot north from the location depicted in the approved plans. Since the building shifted north toward the existing historic building, it did not result in the need for an additional setback variance. However, it presented an issue with regard to the parking garage drive aisle, which had to be reduced from the

required 22' to approximately 20'6". However, the variance requested is to permit up 20' to account for any other minor construction shift. As to the sign, the request specifically deals with the reintroduction of the historic Angler's sign so is certainly peculiar to this Property.

(2) The special conditions and circumstances do not result from the action of the applicant;

The need for the requested drive aisle variance directly results from a site condition that occurred during construction and was not directly a result from any action of the Applicant. The original Angler's sign is something that preceded the Applicant's ownership of the Property, but would like to continue its efforts to honor the historic elements and rich history of the hotel.

(3) Granting the variance requested will not confer on the applicant any special privilege that is denied by these land development regulations to other lands, buildings, or structures in the same zoning district;

There are numerous historic structures in the area, many of which have been renovated and restored. Granting the requested variances will enable the Applicant to continue to develop the structure as approved. The granting of these variances is in line with the purpose and intent of the Code and does not confer any special privilege on the Applicant.

(4) Literal interpretation of the provisions of these land development regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of these land development regulations and would work unnecessary and undue hardship on the applicant;

A literal interpretation of the provisions of these land development regulations would work an unnecessary and undue hardship on the Applicant. The variances are requested in order to effectuate the redevelopment of the Property while allowing an addition in order to allow for the viability of the project. Other property owners have sought and been approved minor variances for drive aisles, especially where the parking is valet only - like this Property, as well as have been encouraged to reintroduce historic signage.

Mr. Thomas Mooney
August 10, 2017
Page 4

- (5) The variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;**

These requests are the minimum necessary in order to allow for the restoration of the historic structure, while allowing for the construction of an addition to ensure the project's viability.

- (6) The granting of the variance will be in harmony with the general intent and purpose of these land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare; and**

These variances will not be injurious to the area or otherwise detrimental to the public welfare. The variances requested facilitate the preservation and utilization of the Property. These requests are consistent with the purpose and intent of the Code and promote the public welfare in the promotion of the restoration of historic properties.

- (7) The granting of this request is consistent with the comprehensive plan and does not reduce the levels of service as set forth in the plan. The planning and zoning director may require applicants to submit documentation to support this requirement prior to the scheduling of a public hearing or any time prior to the board of adjustment voting on the applicant's request.**

The variances requested are consistent with the City's comprehensive plan and do not reduce the levels of service as set forth in the plan.

Conclusion. We believe that the approval of these minimal variances will reflect the plans already approved and allow for the proper construction of this exciting hotel redevelopment project. As always, we look forward to your favorable review.

Sincerely,

Michael J. Marrero
