Board of Adjustment
Planning Department
City of Miami Beach
1700 Convention Center Drive
Miami Beach, FL 33139

RE: Letter of Intent and Description of Hardship in Support of Variance Application

Dear Board of Adjustment:

This letter is submitted in support of our application for one variance regarding the construction of a utility room, second level bathroom and carport in the rear yard of the residence located at 5633 North Bay Road, Miami Beach, Florida 33140. Specifically, we are requesting:

A variance to waive the 20' rear yard required setback to construct a utility room and second level bathroom and carport addition to the existing residence. The existing residence is 5'-2" from the property line, while this new addition would be 7'-2" from the property line.

Current requirement: Rear setback is 20'.

This beautiful, fully landscaped, Mediterranean style, two-story residence was constructed in 1928. The rear setback at the time of construction was 5' and the cabana and two-story garage buildings were constructed 5'-2" from the property line.

We are requesting an exception to the current 20' rear setback requirement in order to construct the new utility room and second level bathroom (+/- 9' x 14') between the existing cabana and home, but 2'-0" further west from the property line. This "recess" creates an additional niche in the rear elevation and allows the existing cabana window to remain.

In addition, we are providing an elegant covered loggia/carport on the south elevation of the existing garage in order to provide shade and match the existing loggia, thereby enhancing the courtyard experience.

Based on the plans and documents that we are submitting with the application, this project satisfies the requirements of Section 118-353(d) of the Miami Beach code:

A. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district.

There are no alternative locations available on this property that would not negatively impact the existing 90 year old residence's appearance.

B. That the special conditions and circumstances do not result from the action of the applicant.

These special conditions and circumstances were created by the original builder when constructing the residence in 1928, in accordance with the codes in place at that time.

C. That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings or structures in the same zoning district.

We are requesting a waiver to match our existing residence, which is unique to this property and contains different conditions than other properties.

D. That literal interpretation of the provisions of this ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

The literal interpretation of the ordinance of maintaining the 20' setback would force the applicant to create an addition that would negatively impact the home, rear yard access and exterior views, which would produce a non-elegant solution.

E. That the granting of the variance will be in harmony with the general intent and purpose and will not be injurious to the area involved or otherwise detrimental to the public welfare.

Granting of this variance will in no way alter the appearance of our home or neighborhood and will have no impact on public welfare. This project is not visible from any adjoin properties.

F. That the granting of the variance will be in harmony with the general intent and purpose of this ordinance and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

The granting of the variance will be in harmony with the neighborhood and will positively impact the appearance of the home and the neighborhood.

G. That the granting of this request is consistent with the comprehensive plan and does not reduce the level of services as set forth in the plan.

The granting of this request is consistent with the comprehensive plan and does not reduce the level of services as set forth in the plan.

In conclusion, this request for variance and proposed small addition would greatly enhance the image and overall appearance of the existing residence, pool area and rear landscaped gardens and courtyard. This addition is not visible from the street or the adjacent properties, which are protected from view by an existing 7' high masonry wall and 25' high hedge.

Thank you for your time consideration of our request for a rear yard setback variance.

Sincerely,

Max Sturman, Principal
Max Wolfe Architect
