

MAYOR'S BLUE RIBBON PANEL ON SEA LEVEL RISE

Our Mission: to monitor the progress of the City's stormwater management program and comprehensive flood management plan; to study and recommend options for historic preservation in the face of climate change; to evaluate and recommend recommendations related to current floor to area ratio (FAR) in light of the need for climate adaptation and the resiliency of the City of Miami Beach; to evaluate and recommend green infrastructure design and to provide resident/business subject matter expertise and input into the development of the citywide Resiliency Strategy.

Thursday, October 26, 2017 11:00 AM – 12:00 PM
