Re: Revised Letter of Intent for Design Review for the Property Located at
5775 Collins Avenue in Miami Beach, Florida

Dear Tom:

This law firm represents Miami Beach Associates, LLC (the "Applicant"), the owner of the property located at 5775 Collins Avenue ("Property") in the City of Miami Beach, Florida ("City"). See Exhibit A, Property Appraiser Summary Report. This letter shall serve as the required letter of intent in connection with a request for design review approval to allow for the redevelopment of the Property with a new 18-story residential building.

Description of the Property. The Property, which is identified by Miami-Dade County Folio No. 02-3211-016-0001, is located on the eastern side of Collins Avenue. The Property is approximately 63,638 square feet (approximately 1.46 acres) in size. The Property has a 12-story residential structure with 110 residential units, called the Marlborough House, built upon it. The Marlborough House was built in 1961.

The Property is designated for RM-3, Residential Multifamily, High Intensity use pursuant to the City's Official Future Land Use Map, and is also located within the RM-3, Residential Multifamily, High Intensity Zoning District pursuant to the City's Official Zoning Map. Residential buildings neighbor the Property to the north, south and west, with beachfront neighboring the Property to the east.

Description of the Development Program. The proposed development calls for the demolition of the existing Marlborough House building and construction of a new eighteen (18) story residential building, along with two levels of

subterranean parking (the "Proposed Development"). The Proposed Development will replace the existing Marlborough House with a less-intense residential building consisting of 89 residential units. The Applicant is seeking design review approval for the Proposed Development.

The Proposed Development will beautify the Property with the construction of a modern beachfront tower. The plans for the Proposed Development prepared by Arquitectonica provide for a new state-of-the-art iconic design. The ground level layout of the Proposed Development will enhance the landscaping and human experience on the Property. Specifically, under the Proposed Development, the Property will have significant foliage and landscaping along the entire boundary, except where necessary for ingress and egress. Both the north and south property lines will be completely lined with trees and shrubbery. The east and west property lines will also be lined with landscaping, except where access points to the beach and Collins Avenue are provided, respectively. The landscaping will serve the area by adding significant greenspace and foliage to a lot that is currently dominated by concrete and parking.

The Proposed Development will have a parking program consisting of valet parking. All of the parking spaces will be located in the two (2) levels of subterranean parking, where 196 parking spaces will be provided. The subterranean parking offered by the Proposed Development allows for the Property to maintain a more accessible and urban design. By not including any surface parking or pedestal parking, the Proposed Development will allow the ground level of the Property to serve people, rather than cars.

The Proposed Development complies with RM-3 density and intensity regulations and is consistent in size and bulk with the neighboring residential towers. The Proposed Development shows sensitivity to and is compatible with the environment and adjacent structures, and enhances the appearance of the surrounding properties by providing landscape buffering throughout the boundary of the Property, orienting the building to enhance visual corridors for the neighboring units, and providing parking underground.

The Proposed Development provides a direct, public, pedestrian access from the sidewalk along Collins Avenue to the Beachwalk ("Beach Access"). The Beach Access is a fifteen (15) feet easement for the public along the southern boundary of the Property. The Beach Access will be heavily landscaped on both sides of the five (5) feet walking passage. The Beach access will be implemented

at the street level grade and will be walled off from the neighboring property to the south and from the proposed development on the remainder of the Property. The Beach Access will have gated access to limit the hours of public access from sunrise to sunset.

Sea Level Rise and Resiliency Review Criteria. Ordinance Number 2017-4123 which set the new Sea Level Rise and Resiliency Review Criteria referenced in the Staff Report was passed on July 26, 2017. The Applicant intends to comply with the Sea Level Rise and Resiliency Review Criteria as follows:

#1 – A recycling or salvage plan for partial or total demolition shall be provided. A recycling plan is not required at this time but will be provided as part of the submittal for permit.

#2 – All windows will be impact resistant and product approval documentation will be submitted with permit drawings.

#3 – All living areas and bedrooms have sliding doors to allow natural ventilation.

#4 – Landscaping on the Property shall be resilient.

#5 – Existing site grade elevations range between approximately 5' and 11' NGVD. Site grade is proposed to be raised to a minimum elevation of 9.0' NGVD around the building, protecting it to that elevation from inundation relative to the City-adopted sea level rise projections. As the SLR projections range from 6 to 10 inches by 2030, 14 to 26 inches by 2060, and 31 to 61 inches by 2100 above mean sea level and the current site MHW elevation at the site is +1.86' NGVD, the worst case SLR projection for the site MHW elevation by 2100 is approximately 6.94' NGVD.

#6 – Lobby Level finish floor is approximately 7'-0" above sidewalk therefore, if right-of-way is raised, all ramps are easily adapted. *FDOT does not have plans to increase the elevation at Collins in this area. Refer to attached email from Ana T. Arvelo (FDOT Project Manager).* As a general rule, the City is currently only proposing to raise roads whose crown is below 3.7' NAVD (per David Gomez with CIP in the same e-mail chain as with FDOT).

Mr. Thomas Mooney
Planning Director
October 2, 2017
Page 4

#7 - Where feasible, all mechanical and electrical systems shall be located above base flood elevation.

#8 - The existing building on the Property will be demolished and the new structure shall be above base flood elevation.

#9 - All habitable spaces are above elevation +13.0' NGVD (5'-0" above base flood). Additionally, dry floodproofing of the building is proposed to an elevation of +9.0' NGVD.

#10 - Planter filters will direct water to four drainage wells located on the property. The garage will use french drains set on 2'-0" sand bed.

Conclusion. The Applicant has worked with City staff and area stakeholders to ensure the Applicant's proposal will not adversely affect the immediate neighborhood. Instead, the proposed redevelopment will be a much-welcomed enhancement to the neighborhood in a manner that is more consistent with the area.

We respectfully request your prompt review and favorable recommendation of the proposed design. If you have any questions or comments with regard to the application, please do not hesitate to contact me at (305) 377-6231.

Sincerely,

Michael Larkin
