LAND USE BOARD HEARING APPLICATION

THE FOLLOWING APPLICATION IS SUBMITTED FOR REVIEW AND CONSIDERATION OF THE PROJECT DESCRIBED HEREIN BY THE LAND USE BOARD SELECTED BELOW. A SEPARATE APPLICATION MUST BE COMPLETED FOR EACH BOARD REVIEWING THE PROPOSED PROJECT.

- ☐ BOARD OF ADJUSTMENT
 - ☐ VARIANCE FROM A PROVISION OF THE LAND DEVELOPMENT REGULATIONS
 - ☐ APPEAL OF AN ADMINISTRATIVE DECISION
- ☐ DESIGN REVIEW BOARD
 - ☐ DESIGN REVIEW APPROVAL
 - ☐ VARIANCE RELATED TO PROJECT BEING CONSIDERED OR APPROVED BY DRB.
- ☐ HISTORIC PRESERVATION BOARD
 - ☐ CERTIFICATE OF APPROPRIATENESS FOR DESIGN
 - ☐ CERTIFICATE OF APPROPRIATENESS TO DEMOLISH A STRUCTURE
 - ☐ HISTORIC DISTRICT / SITE DESIGNATION
 - ☐ VARIANCE RELATED TO PROJECT BEING CONSIDERED OR APPROVED BY HPB.
- ☒ PLANNING BOARD
 - ☒ CONDITIONAL USE PERMIT
 - ☐ LOT SPLIT APPROVAL
 - ☐ AMENDMENT TO THE LAND DEVELOPMENT REGULATIONS OR ZONING MAP
 - ☐ AMENDMENT TO THE COMPREHENSIVE PLAN OR FUTURE LAND USE MAP
- ☐ FLOOD PLAIN MANAGEMENT BOARD
 - ☐ FLOOD PLAIN WAIVER
- ☐ OTHER _____

SUBJECT PROPERTY ADDRESS: 803 5th Street

Re: PB17-0157 – The Fifth Hotel – Revised Letter of Intent for a Conditional Use
Permit for the Property Located at 803 5th Street in Miami Beach, FL

Dear Tom:

This law firm represents The Fifth Hotel, LLC (the “Applicant”), the owner of the property located at 803 5th Street (“Property”) in the City of Miami Beach, Florida (“City”). See Exhibit A, Property Appraiser Summary Report. This letter shall serve as the required letter of intent in connection with a request for a Conditional Use Permit to allow the use of mechanical parking lifts for a new hotel development.

Description of the Property. The Property, which is identified by Miami-Dade County Folio No. 02-4203-009-4970, is located on the northwest corner of the Meridian Avenue and 5th Street intersection within in the City. The Property is approximately 9,000 square feet in size and has been vacant for approximately two decades. The Property is zoned CPS-2 and located within the Ocean Beach Historic District. Historically, the Property housed a banking structure built in 1925; however, it was demolished by previous owners in the mid-1990s.

The Property is surrounded on all sides by CPS-2 zoned properties that are also located within the Ocean Beach Historic District. A 2-story building housing the Tap Tap restaurant is directly west of the Property. Further west is a Shell gasoline service station and the platted alley of Meridian Court. A surface parking lot for the 5-story Star Meridian condominium directly abuts the Property to the north. To the west of the

Property lies Meridian Avenue, a 70 foot wide public right-of-way, as well as 3-story mixed use commercial and condominium building. The 3-story Urbanica – The Meridian Hotel is located south of the Property and 5th Street, an expansive and primary City arterial roadway. To the southeast of the Property lies a 5-story mixed use building housing the Miami Beach Bicycle Center and Meridian 5 condominium.

Description of the Development Program. Through this application the Applicant seeks approval of mechanical parking lifts. The Applicant has submitted a separate application to the Historic Preservation Board (“HPB”) requesting approval of a 5-story mixed-use hotel with accessory café and mechanical parking lifts, along with a variance request to reduce the drive-aisle width to accommodate the required on-site loading space. See HPB File No. HPB17-0157. To summarize, the hotel will house 32 units, including open air projecting balconies. The contemporary design includes natural wood and stone elements, as well as ample greenery. Following best urban design practices, the Applicant’s proposal incorporates commercial uses along both the major roadways with all required parking being enclosed. The Applicant wishes to provide on-site parking through the use of mechanical parking lifts. In accordance with Section 130-38(4) of the Code, any use of mechanical parking devices requires conditional use approval.

- (i) General Guidelines for Conditional Uses. Pursuant to Code Section 118-191(a), review and approval of conditional uses includes evaluation of the proposed use in relation to the following guidelines:

- (1) The use is consistent with the comprehensive plan or neighborhood plan if one exists for the area in which the property is located.**

A mixed-use hotel with accessory and on-site parking is consistent with the comprehensive plan and underlying CPS-2 zoning district.

- (2) The intended use or construction will not result in an impact that will exceed the thresholds for the levels of service as set forth in the comprehensive plan.**

Based on the traffic memorandum included with the Application, the construction of the Project is not expected to have any negative impact in excess of the thresholds of level of service provided for in the comprehensive plan. This project will satisfy its own required parking supply, and will also provide desired commercial and hotel uses along a mass transit corridor.

(3) Structures and uses associated with the request are consistent with these land development regulations.

The Applicant has submitted an application to the HPB for the new development on the Property as well as one variance concerning the interior drive-aisle to accommodate the required on-site loading space in the garage. The proposed mixed-use hotel is consistent with the City's land development regulations.

(4) The public health, safety, morals, and general welfare will not be adversely affected.

The proposed use and development of the Property is consistent with the neighborhood and will enhance the vibrancy of the area. The tasteful architecture and enhanced pedestrian experience will attract retailers and spur daytime foot traffic. The new uses created will generate jobs and increase the tax base, thereby stimulating the local economy and jumpstarting consumer activity in the neighborhood.

(5) Adequate off-street parking facilities will be provided.

The Applicant will provide all required 42 off-street parking spaces onsite for use by all land uses on the Property to be served by valet. Valet drivers will pick-up and drop-off cars at the entrance to the garage. The parking garage will have 13 mechanical triple lifts, 1 mechanical double lift and 1 ADA parking space.

(6) Necessary safeguards will be provided for the protection of surrounding property, persons, and neighborhood values.

The Applicant's design team has taken great care to design a quality project that will provide for the safety and security of the entire area. The Applicant will be implementing all necessary tools to mitigate any potential harmful effects. Building and façade articulation ensure a beautiful development that is compatible with the historic district.

(7) The concentration of similar types of uses will not create a negative impact on the surrounding neighborhood. Geographic concentration of similar types of conditional uses should be discouraged.

To the contrary, the Property's location is ideal to introduce this type of commercial development, as it will pose a positive impact on the surrounding neighborhood.

- (ii) Satisfaction of Mechanical Parking Review Criteria. The Applicant's request satisfies the mechanical parking review criteria and guidelines as described in 130-38(4):

(1) Whether the scale of the proposed structure is compatible with the existing urban character of the surrounding neighborhood.

The nearby area contains numerous buildings of similar scale and massing. The high quality development and street activation are in line with the desired direction for the neighborhood, and the project's size is consistent with the buildings already existing in the immediate vicinity. The hotel's size and design ensures that the project's massing does not impact the context and scale of the surrounding built environment.

(2) Whether the proposed use of mechanical parking results in an improvement of design characteristics and compatibility with the surrounding neighborhood.

The proposed use of mechanical parking results in the improvement of design characteristics and compatibility with the surrounding neighborhood. Specifically, the use of the mechanical parking will improve the Project by reconfiguring the space allocated to meet the off-street parking requirements, without adding to the scale and massing of the building, and without having patrons find parking at other locations.

(3) Whether the proposed use of mechanical parking does not result in an increase in density or intensity over what could be constructed with conventional parking.

The proposed use of mechanical parking does not result in an increased density or intensity over that which could be constructed with conventional parking methods. The proposed Project aims to meet the City's off-street parking requirement and desires to accomplish this with the addition of mechanical parking.

(4) Whether parking lifts or mechanisms are located inside, within a fully enclosed building, and not visible from exterior view.

The proposed mechanical parking lifts will be located within an enclosed and screened building and will not be visible from exterior view.

(5) In cases where mechanical parking lifts are used for self-parking in multifamily residential buildings; whether approval is conditioned upon the proper restrictive covenant being provided limiting the use of each lift to the same unit owner.

Not applicable as all parking will be 100% valet-operated.

- (6) In cases where mechanical parking lifts are used for valet parking; whether approval is conditioned upon the proper restrictive covenant being provided stipulating that a valet service or operator must be provided for such parking for so long as the use continues.**

The proposed mechanical parking lifts will be will be operated by a valet. Accordingly, a restrictive covenant will be proffered by the Applicant.

- (7) Whether a traffic study has been provided that details the ingress, egress and circulation within the mechanical parking facility, and the technical and staffing requirements necessary to ensure that the proposed mechanical parking system does not cause excessive stacking, waiting, or backups onto the public right-of-way.**

A traffic study has been provided which addresses the details of the mechanical parking facility.

- (8) Whether a proposed operations plan, including hours of operation, number of employees, maintenance requirements, noise specifications, and emergency procedures, has been provided.**

An operations plan has been provided with the application materials.

- (9) In cases where the proposed facility includes accessory uses in addition to the parking garage, whether the accessory uses are in proportion to the facility as a whole, and delivery of merchandise and removal of refuse, and any additional impacts upon the surrounding neighborhood created by the scale and intensity of the proposed accessory uses, are adequately addressed.**

The proposed parking garage is meant to service the required parking for the mixed-use hotel and accessory cafe. The parking garage will provide for the on-site parking to serve the proposed development program. The operations plan included with the Application describes the functions of the development.

- (10) Whether the proximity of the proposed facility to similar size structures and to residential uses creates adverse impacts and how such impacts are mitigated.**

There are similar size structures in the proposed structure's vicinity. However, the proposed structure is compatible with the area and will not create any adverse impacts, especially as all required parking will be provided on-site.

(11) Whether a cumulative effect from the proposed facility with adjacent and nearby structures arises, and how such cumulative effect will be addressed.

There will be no cumulative effect from the proposed facility with adjacent and nearby structures.

Sea Level Rise and Resiliency Criteria. The Applicant's proposal is compliant with the sea level rise and resiliency review criteria provided in City Code Section 130-50(a) as follows:

(1) A recycling or salvage plan for partial or total demolition shall be provided.

The Property is vacant, but, if applicable to any materials on site, the Applicant will provide a recycling or salvage plan during the permitting phase of the project.

(2) Windows that are proposed to be replaced shall be hurricane proof impact windows.

The Applicant's project will include entirely hurricane impact windows.

(3) Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.

While operable windows are not a feasible passive cooling system for the proposed hotel, the Applicant's proposal does include open air balconies.

(4) Whether resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) will be provided.

The Applicant will be providing abundant landscaping on the Property, which will be resilient.

(5) Whether adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact, including a study of land elevation and elevation of surrounding properties were considered.

Sea level rise projections, land elevation and elevation of surrounding properties were considered, as was the City's general plan to elevate the adjacent roadways. The Project has been designed to accommodate the raising of the roads, both now and in the future (see response to item (6) below), and complies with the minimum elevation requirements

of the Florida Building Code. Notably, the all hotel units are substantially above base flood elevation.

- (6) The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land.**

The ground floor, driveways, and garage ramping will be adaptable to raising of the adjacent public rights-of-way, both for the minimal raising in the short-term and potential for significant raising in the future. The future lowest floor slab will be at 12 feet, 6 inches NGVD, where BFE is merely 8 feet. This will ensure a first floor of 11 feet, 2 inches for future ground floor uses, which is an ample space for the lobby and café. Further, the critical mechanical and electrical systems will be located above BFE and flood proofing will be provided within habitable space where necessary.

- (7) Where feasible and appropriate, all critical mechanical and electrical systems shall be located above base flood elevation.**

All critical mechanical and electrical systems will be located above base flood elevation.

- (8) Existing buildings shall be, where reasonably feasible and appropriate, elevated to the base flood elevation.**

The Property is vacant and there are no existing buildings. However, as mentioned in item (6) above, the future floor slab will be at 12 feet, 6 inches NGVD and all proposed units are located substantially above base flood elevation.

- (9) When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.**

Habitable space is not located below the BFE, and as indicated in item (6) above, the lowest floor may be substantially raised above BFE.

- (10) Where feasible and appropriate, water retention systems shall be provided.**

Given the nature of the proposed hotel development, providing a water retention system is not feasible.

Conclusion. The Applicant's mixed-use proposal with mechanical parking is consistent with the character of the neighborhood, as well as the intent of the Code and its design considerations. The proposed mechanical lift parking will permit the

Thomas Mooney, Planning Director
October 26, 2017
Page 8

Applicant to meet the required off-street parking without adding massing and intensity to the proposed development.

We respectfully request your review and favorable recommendation of the conditional use permit request. If you have any questions or comments with regard to the application, please do not hesitate to contact me at (305) 377-6236.

Sincerely,

Matthew Amster

BOARD APPLICATION CHECK LIST

A Pre-Application meeting must be scheduled via CAP to obtain a plan case number and for board staff review of all submittals.	
Pre-Application meetings for applications that do not require a traffic study are scheduled on a first come-first served basis and must occur no later than five(5) business days prior to CAP First submittal.	
Applications requiring a traffic study must meet with Planning, Transportation, and peer reviewer sixty (60) days prior to First submittal deadline to determine the methodology for the traffic impact study. This meeting is considered the "Pre-Application meeting" and must be scheduled via CAP to obtain a plan case number for review and payment of fees. Thirty (30) days before First submittal, applicant must provide the traffic study via CAP (see Transportation Department's requirements check list). The Transportation Department/Peer Reviewer will submit first round of comments 15 days prior to First submittal. Applicant must address comments and submit revised traffic study/plans for CAP First submittal deadline.	
Incomplete, or submittals found to be insufficient will not be placed on a Board agenda.	

ITEM #	FIRST SUBMITTAL (VIA CAP) ** To be uploaded online (CAP) by the applicant before 5:00 pm by First submittal deadline. ALL PLANS MUST BE DIMENSIONED AND LEGIBLE. INCLUDE A GRAPHIC SCALE.	Required
1	Application Fee and Peer review fees shall be paid after Pre-Application meeting and before the First submittal. It is the applicant's responsibility to make this payment, if an invoice is not generated by the CAP system, the applicant should contact staff prior to first submittal to be invoiced and make payment.	X
2	Copy of signed and dated check list issued at Pre-Application meeting.	X
3	Completed Board Application, Affidavits & Disclosures of Interest (original signatures).	X
4	Signed and dated Letter of Intent. Letter must outline application details and identify hardships if Variances are requested. (see also Items # 42,43 and 44).	X
5	Mailing Labels: Upload property owner's list and copy of original certified letter from provider. See #52 for submittal of Hard copy / originals of these items.	X
6	Copies of all current or previously active Business Tax Receipts.	
7	School Concurrency Application for projects with a net increase in residential units (no SFH). Provide Planning Department - Miami Dade - School Concurrency Application for Transmittal	N/A
8	Survey: Electronic version of original signed & sealed, dated no more than six months from date of application. Survey must provide: lot area, grade per Section 114-1 of the City Code. (if no sidewalk exists, provide the elevation of the crown of the road) and spot elevations.	X
9	Architectural Plans and Exhibits (must be 11"x 17")	X
a	Cover Sheet with bullet point scope of work, clearly labeled "First Submittal" and dated with First Submittal deadline date. Include copies of previous recorded board orders, if applicable.	X
b	Copy of the original survey included in plan package. See No. 8 above for survey requirements	X
c	All Applicable Zoning Information (Use Planning Department zoning data sheet format).	X
d	Context Location Plan, Min 8.5"x11" Color Aerial 1/2 mile radius, identifying project and showing name of streets. (no Google Images)	X
e	Full legal description of the property if not included in survey (for lengthy legal descriptions, attach as a separate document - label clearly).	X
f	Existing FAR Shaded Diagrams (Single Family Districts: Unit Size and Lot Coverage Shaded Diagrams), if applicable	X
g	Proposed FAR Shaded Diagrams (Single Family Districts: Unit Size and Lot Coverage Shaded Diagrams), if applicable.	X
h	Site Plan (fully dimensioned with setbacks, existing and proposed, including adjacent right-of-way widths).	X

* 60 day lead time for projects including traffic studies is necessary to ensure completion of review and required corrections by Final submittal deadline. Applications cannot be scheduled without evaluated and corrected traffic studies.

52	Mailing Labels -2 sets of gummed labels and a CD including: Property owner's list and Original certified letter from provider.	X

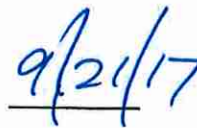

ADDITIONAL INFORMATION AND ACKNOWLEDGEMENTS

- A. Other information/documentation required for First submittal will be identified during Pre-Application meeting but may be modified based on further analysis.
- B. It is the responsibility of the applicant to confirm that documents submitted via CAP, Paper Submittal sets (14 copies), and electronic version on CD are consistent with each other and legible.
- C. Plan revisions and supplemental documentation will not be accepted after the Final Submittal deadline
- D. All documents required for Board applications must be submitted in an electronic format (PDF) via CD in the manner prescribed herein. The CD is considered the "Formal Submission", and must include the electronic version of all hard copy documents associated with the application. A new Updated CD will be required if any modifications are made before or after hearing. Failure to comply with the aforementioned may result in a rehearing before the applicable board at the applicant's expense.
- E. Please note that the applicant will be required to submit revised plans pursuant to applicable Board Conditions no later than 60 days after Board Approval. (If applicable)

Responses to Planning Comments issued on October, 19th
Planning Board File No. PB17-0157

1. For Planning Board Submittal please eliminate pages A 0.01, A 0.02, A 0.15, eliminate one of the renderings that is repeated twice that is also part of the cover page.

Response: The sheets have been removed

2. LOI: respond to each of the sea level rise and resiliency review criteria per section 133-50, see criteria below:

- A recycling or salvage plan for partial or total demolition shall be provided.
- Windows that are proposed to be replaced shall be hurricane proof impact windows.
- Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.
- Whether resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) will be provided.
- Whether adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact, including a study of land elevation and elevation of surrounding properties were considered.
- The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land.
- Where feasible and appropriate, all critical mechanical and electrical systems shall be located above base flood elevation.
- Existing buildings shall be, where reasonably feasible and appropriate, elevated to the base flood elevation.
- When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.
- Where feasible and appropriate, water retention systems shall be provided.

Response: See revised letter of intent.

3. LOI: list all required variances Per HPB application

Response: There is only 1 variance request for the drive-aisle width to accommodate the on-site loading space. See revised letter of intent.

4. From check list (Survey): Provide Lot Area on survey, the survey should be signed and sealed.

Response: The survey is signed and sealed and the size of the property is shown on the center of the drawing of the property (net area 9,000 sq.ft.).

5. FAR diagrams and floor plans: the balconies on the north side levels 3-5, in order to count partially for FAR they should be separated 3 FT on one side not 6" gap between structure, please revise plans or the whole balcony should be included in FAR.

Response: The gap between balconies and structure was increased to 3'-0" on levels 3, 4, and 5. See sheets A1.03 and A1.04

6. Provide an additional East-west section for the entire project thru the stairs above the garage door, provide marks on plans.

Response: See sheet A2.06B for new section

7. Site Plan and floor plans:

- A) Provide backflow preventer and FPL vault if applicable.
- B) Provide floor area for retail space on ground level floor plan.

Response:

A) Backflow and FPL was provided, see sheet A1.01

B) Hotel Retail space on the ground floor is 111 square feet. See Sheet A.101. The retail is part of the hotel, not a separate tenant space.

8. Schematic plan required per section 130-38 (3)(c) (i) (1)-(2) with no mechanical parking is insufficient:

- A) The ramp on the first level should be setback 5' on the rear.
- B) Parking (handicap parking area) should be setback 5' from the side property line.
- C) The same site plan requirements per check list should show on this alternative.

Response:

A, B and C) Please, see ALT-PARK sheet. These comments have been corrected

9. LANDSCAPE COMMENTS: address all landscape comments by Ricardo Guzman per HPB application.

Response: Landscape comments were satisfactorily addressed in the previous HPB submission (File No. HPB17-0157)
