MIAMIBEACH

PLANNING DEPARTMENT

Staff Report & Recommendation

Design Review Board

TO:

DRB Chairperson and Members

DATE: December 05, 2017

FROM:

Thomas R. Mooney, AICF

Planning Director

SUBJECT:

DRB17-0194

1820 Bay Road

The applicant, 1800 Bay Road Investors LLC is requesting Design Review Board approval for the construction of a new one-story building which will replace an existing one-story building.

RECOMMENDATION:

Approval with conditions

LEGAL DESCRIPTION:

East ½ of Lot 3 of Block 14 of Island View Subdivision, According to the Plat Thereof, as Recorded in Plat Book 6, Page 115, of the Public Records of Miami-Dade County, Florida.

HISTORY:

On April 01, 2014 an application for a new two-story commercial building was approved by the DRB on the corner site, south of the subject property, pursuant to DRB File No. 23038.

SITE DATA:

Zoning:

CD-2 Commercial, Medium Intensity District

Future Land Use:

CD

Lot Size:

3,750 SF (50'x75")

Existing FAR:

0.6 | 2,204 SF

Proposed FAR:

0.9 | 3,357 SF as represented by the applicant

Permitted FAR:

1.5 | 5,625 SF

Proposed Height:

20'-0" 50'-0"

Permitted Height:

Grade: +5.61' NGVD

Base Flood Elevation (BFE): +8.00' NGVD

Adjusted Grade: +6.81' NGVD

SURROUNDING PROPERTIES:

East: Three-story commercial North: Three-story commercial South: Two-story commercial

West: Two-story commercial

EXISTING STRUCTURE:

Architect: Victor Nellenbogen Year built: 1938 (one-story)

Demolition: Total

THE PROJECT:

The applicant has submitted plans entitled "1820 Bay Road", as prepared by STA Architectural Group, dated October 16, 2017.

The applicant is proposing to construct a new one-story commercial building to replace an existing one-story office building.

CONSISTENCY WITH COMPREHENSIVE PLAN

A preliminary review of the project indicates that the proposed **commercial use** appears to be **consistent** with the Future Land Use Map of the 2025 Comprehensive Plan.

COMPLIANCE WITH ZONING CODE:

A preliminary review of the project indicates that the application, as proposed, appears to be consistent with the City Code. The above noted comments shall not be considered final zoning review or approval. These and all zoning matters shall require final review and verification by the Zoning Administrator prior to the issuance of a Building Permit.

COMPLIANCE WITH DESIGN REVIEW CRITERIA:

Design Review encompasses the examination of architectural drawings for consistency with the criteria stated below with regard to the aesthetics, appearances, safety, and function of the structure or proposed structures in relation to the site, adjacent structures and surrounding community. Staff recommends that the following criteria be found satisfied, not satisfied or not applicable, as hereto indicated:

- The existing and proposed conditions of the lot, including but not necessarily limited to topography, vegetation, trees, drainage, and waterways.
 Satisfied
- 2. The location of all existing and proposed buildings, drives, parking spaces, walkways, means of ingress and egress, drainage facilities, utility services, landscaping structures, signs, and lighting and screening devices.

 Satisfied
- 3. The dimensions of all buildings, structures, setbacks, parking spaces, floor area ratio, height, lot coverage and any other information that may be reasonably necessary to determine compliance with the requirements of the underlying zoning district, and any applicable overlays, for a particular application or project.

 Satisfied
- The color, design, selection of landscape materials and architectural elements of Exterior Building surfaces and primary public interior areas for Developments requiring a Building Permit in areas of the City identified in section 118-252.
 Satisfied
- 5. The proposed site plan, and the location, appearance and design of new and existing Buildings and Structures are in conformity with the standards of this Ordinance and other applicable ordinances, architectural and design guidelines as adopted and amended periodically by the Design Review Board and Historic Preservation Boards, and all pertinent master plans.

Satisfied

6. The proposed Structure, and/or additions or modifications to an existing structure, indicates a sensitivity to and is compatible with the environment and adjacent Structures, and enhances the appearance of the surrounding properties.

Satisfied

7. The design and layout of the proposed site plan, as well as all new and existing buildings shall be reviewed so as to provide an efficient arrangement of land uses. Particular attention shall be given to safety, crime prevention and fire protection, relationship to the surrounding neighborhood, impact on contiguous and adjacent Buildings and lands, pedestrian sight lines and view corridors.

Satisfied

8. Pedestrian and vehicular traffic movement within and adjacent to the site shall be reviewed to ensure that clearly defined, segregated pedestrian access to the site and all buildings is provided for and that all parking spaces are usable and are safely and conveniently arranged; pedestrian furniture and bike racks shall be considered. Access to the Site from adjacent roads shall be designed so as to interfere as little as possible with traffic flow on these roads and to permit vehicles a rapid and safe ingress and egress to the Site.

Satisfied

9. Lighting shall be reviewed to ensure safe movement of persons and vehicles and reflection on public property for security purposes and to minimize glare and reflection on adjacent properties. Lighting shall be reviewed to assure that it enhances the appearance of structures at night.

Not Satisfied; a lighting plan has not been submitted.

10. Landscape and paving materials shall be reviewed to ensure an adequate relationship with and enhancement of the overall Site Plan design.

Satisfied

11. Buffering materials shall be reviewed to ensure that headlights of vehicles, noise, and light from structures are adequately shielded from public view, adjacent properties and pedestrian areas.

Satisfied

12. The proposed structure has an orientation and massing which is sensitive to and compatible with the building site and surrounding area and which creates or maintains important view corridor(s).

Satisfied

13. The building has, where feasible, space in that part of the ground floor fronting a street or streets which is to be occupied for residential or commercial uses; likewise, the upper floors of the pedestal portion of the proposed building fronting a street, or streets shall have residential or commercial spaces, shall have the appearance of being a residential or commercial space or shall have an architectural treatment which shall buffer the appearance of the parking structure from the surrounding area and is integrated with the overall appearance of the project.

Satisfied

14. The building shall have an appropriate and fully integrated rooftop architectural treatment which substantially screens all mechanical equipment, stairs and elevator towers.

Not Satisfied; a mechanical plan has not been submitted.

- 15. An addition on a building site shall be designed, sited and massed in a manner which is sensitive to and compatible with the existing improvement(s).

 Satisfied
- All portions of a project fronting a street or sidewalk shall incorporate an architecturally appropriate amount of transparency at the first level in order to achieve pedestrian compatibility and adequate visual interest.
 Satisfied
- 17. The location, design, screening and buffering of all required service bays, delivery bays, trash and refuse receptacles, as well as trash rooms shall be arranged so as to have a minimal impact on adjacent properties.

Satisfied |

18. In addition to the foregoing criteria, subsection [118-]104(6)(t) of the City Code shall apply to the design review board's review of any proposal to place, construct, modify or maintain a wireless communications facility or other over the air radio transmission or radio reception facility in the public rights-of-way.

Not Applicable

 The structure and site complies with the sea level rise and resiliency review criteria in Chapter 133, Article II, as applicable.
 Not Safisfied

COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA

Section 133-50(a) of the Land Development establishes review criteria for sea level rise and resiliency that must be considered as part of the review process for board orders. The following is an analysis of the request based upon these criteria:

- A recycling or salvage plan for partial or total demolition shall be provided.
 Not Satisfied
- 2. Windows that are proposed to be replaced shall be hurricane proof impact windows. **Satisfied**
- 3. Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.

Satisfied

4. Whether resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) will be provided.

Not Applicable

5. Whether adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact, including a study of land elevation and elevation of surrounding properties were considered.

Not Satisfied

6. The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land.

Not Applicable

- 7. Where feasible and appropriate, all critical mechanical and electrical systems shall be located above base flood elevation.
 - Satisfied
- 8. Existing buildings shall be, where reasonably feasible and appropriate, elevated to the base flood elevation.
 - **Not Applicable**
- 9. When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.
 - **Not Satisfied**
- 10. Where feasible and appropriate, water retention systems shall be provided.

 Not Satisfied

STAFF ANALYSIS:

DESIGN REVIEW

The applicant is proposing to construct a one-story commercial structure located midblock along Bay Road. Two retail bays are proposed within the shell. On April 01, 2014 an application for a new two-story commercial building was approved by the DRB on the corner site, south of the subject property, pursuant to DRB File No. 23038. The design of this building will seamlessly blend into and continue the architecture of the abutting property to the south. The materials, proportion, and size of the storefront systems will match its neighbor. Staff is supportive of the applicant and recommends approval of the design as proposed.

RECOMMENDATION:

In view of the foregoing analysis, staff recommends the application be **approved**, subject to the conditions enumerated in the attached Draft Order, which address the inconsistencies with the aforementioned Design Review criteria and Sea Level Rise criteria.

DESIGN REVIEW BOARD City of Miami Beach, Florida

MEETING DATE:

December 05, 2017

FILE NO:

DRB17-0194

PROPERTY:

1820 Bay Road

APPLICANT:

1800 Bay Road Investors LLC

LEGAL:

East ½ of Lot 3 of Block 14 of Island View Subdivision, According to the Plat Thereof, as Recorded in Plat Book 6, Page 115, of the Public Page of Migrai Page County Florida

Records of Miami-Dade County, Florida.

IN RE:

The Application for Design Review Board approval for the construction of a new one-story building which will replace an existing one-story building.

ORDER

The City of Miami Beach Design Review Board makes the following FINDINGS OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

I. Design Review

- A. The Board has jurisdiction pursuant to Section 118-252(a) of the Miami Beach Code. The property is not located within a designated local historic district and is not an individually designated historic site.
- B. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Design Review Criteria 2, 3, 5, and 6 in Section 118-251 of the Miami Beach Code.
- C. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Sea Level Rise Criteria 1, 5, 9, and 10 in Section 133-50(a) of the Miami Beach Code.
- D. The project would be consistent with the criteria and requirements of Section 118-251 and/or Section 133-50(a) if the following conditions are met
- 1. Revised elevation, site plan and floor plan drawings for the proposed commercial building at 1820 Bay Road shall be submitted to and approved by staff; at a minimum, such drawings shall incorporate the following:
 - a. All building signage shall require a separate permit. A uniform sign plan for the new building shall be required. Such sign plan shall be consistent in materials, method of illumination and sign location, in a manner to be

- reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
- b. The final design and details of the proposed storefront system shall be required, in a manner to be reviewed and approved by staff. Manufacturer's drawings and Dade County product approval numbers for all new windows, doors and glass shall be required.
- c. All roof-top fixtures, air-conditioning units and mechanical devices shall be clearly noted on a revised roof plan and shall configured to be as close to the center of the roof as possible and screened from view on all sides, in a manner to be approved by staff.
- d. The stone cladding proposed along the façades of the building shall match in size, color and material to the neighboring building to the south, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
- e. All interior fixtures, including, but not limited to, shelving, partitions, and checkout counters, if parallel to the exterior wall, shall be setback a minimum of ten (10') feet from the east and south walls of the building on the first and second levels, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board. This shall not prohibit substantially transparent fixtures for display purposes; however, shelving, partitions, and checkout counters, or similar objects, shall not be permitted to be flush to the east and south walls of the building on the first and second levels.
- f. The final design and details of all exterior and interior lighting shall be provided, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board. Interior lighting shall be designed in a manner to not have an adverse overwhelming impact upon the surrounding area. No florescent or intensive 'white' lighting (or similar intensive lighting) visible from the adjacent public rights or way or adjacent properties shall be permitted.
- g. Any future kitchen ventilation shall be chased through the interior of the building to the roof or along the rear. No exhaust ducts or vents shall be permitted on any building elevations except the rear elevation.
- h. A fully enclosed, air-conditioned trash room shall be provided, which is sufficient to handle the maximum uses intended for the proposed structure. External dumpsters shall not be permitted.
- i. If technically feasible, all overhead utility lines shall be placed underground.
- j. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit, and shall be located immediately after the front cover page of the permit plans.

- k. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in accordance with the plans approved by the Planning Department for Building Permit.
- 2. A revised landscape plan, prepared by a Professional Landscape Architect, registered in the State of Florida, and corresponding site plan, shall be submitted to and approved by staff. The species type, quantity, dimensions, spacing, location and overall height of all plant material shall be clearly delineated and subject to the review and approval of staff. At a minimum, such plan shall incorporate the following:
 - a. Street trees shall be required within the swale at the front of the property if not in conflict with existing utilities, in a manner to be reviewed and approved by the Public Works Department.
 - b. Any existing plant material within the public right-of-way may be required to be removed, as the discretion of the Public Works Department.
 - c. A fully automatic irrigation system with 100% coverage and an automatic rain sensor in order to render the system inoperative in the event of rain. Right-of-way areas shall also be incorporated as part of the irrigation system.
 - d. The utilization of root barriers and Silva Cells, as applicable, shall be clearly delineated on the revised landscape plan.
 - e. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all backflow preventers and all other related devices and fixtures. The location of backflow preventers, Siamese pipes or other related devices and fixtures, if any, and how they are screened with landscape material from the right-of-way, shall be clearly indicated on the site and landscape plans, and shall be subject to the review and approval of staff.
 - f. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all applicable FPL transformers or vault rooms. The location of any exterior transformers and how they are screened with landscape material from the right of wall shall be clearly indicated on the site and landscape plans and shall be subject to the review and approval of staff.
 - a. Prior to the issuance of a Certificate of Occupancy, the Landscape Architect or the project architect shall verify, in writing, that the project is consistent with the site and landscape plans approved by the Planning Department for Building Permit

In accordance with Section 118-262, the applicant, or the city manager on behalf of the city administration, or an affected person, Miami Design Preservation League or Dade Heritage Trust may seek review of any order of the Design Review Board by the City

Commission, except that orders granting or denying a request for rehearing shall not be reviewed by the commission.

I. Variance(s)

- A. No variance(s) were filed as part of this application.
- III. General Terms and Conditions applying to both 'I. Design Review Approval and 'II. Variances' noted above.
 - A. A recycling plan shall be provided as part of the submittal for a demolition/building permit to the building department, in a manner to be reviewed and approved by staff.
 - B. A Construction Parking and Traffic Management Plan (CPTMP) shall be approved by the Parking Director pursuant to Chapter 106, Article II, Division 3 of the City Code, prior to the issuance of a Building Permit.
 - C. The final building plans shall meet all other requirements of the Land Development Regulations of the City Code.
 - D. The Final Order shall be recorded in the Public Records of Miami-Dade County, <u>prior</u> to the issuance of a Building Permit.
 - E. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.
 - F. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
 - G. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.
 - H. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

IT IS HEREBY ORDERED, based upon the foregoing findings of fact, the evidence, information testimony and materials presented at the public hearing, which are part of the record for this matter, and the staff report and analysis, which are adopted herein, including the staff recommendations, which were amended and adopted by the Board, that the **application** is GRANTED for the above-referenced project subject to those certain conditions specified in Paragraph I, II, III of the Finding of Fact, to which the applicant has agreed.

PROVIDED, the applicant shall build substantially in accordance with the plans, entitled "1820 Bay Road", as prepared by **STA Architectural Group**, dated October 16, 2017, and as approved by the Design Review Board, as determined by staff.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board approved plans, this approval does not mean that such handicapped access is not required. When requesting Building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of Chapter 118 of the City Code, the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project shall expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with Chapter 118 of the City Code, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations of the City Code. Failure to comply with this **Order** shall subject the application to Chapter 118 of the City Code, for revocation or modification of the application.
