Re: Division of Hotels and Restaurants Plan Review License Type: 2010 PERMANENT FOOD SERVICE Application No. 605719 File No. 250334 Log No. HQ-12-204

Bear Plan Review Applicant:

Congratulations on your decision to operate a restaurant in Floridal I have approved the public food service establishment plans for FUJI JAPANESE BUFFET, 1415 WASHINGTON AVENUE, MIAMI BEACH, FL 33139, as of August 12, 2011, *with the following condition(s)*:

1) PROVIDE A WRITTEN CONSUMER ADVISORY IF ANIMAL PRODUCTS ARE OFFERED RAW OR UNDERCOOKED.

2) IF NON-EXEMPT FISH IS OFFERED RAW OR UNDERCOOKED, THE ESTABLISHMENT MUST MAINTAIN PARASITE DESTRUCTION FREEZING RECORDS AT THE ESTABLISHMENT.

3) ADEQUATE SNEEZEGUARD/BARRIER MUST BE PROVIDED ON THE TO PREVENT CUSTOMER CROSS CONTAMINATION OF THE DISPLAYED FOOD PRODUCTS.

Please have the above information or proof of compliance with the conditions ready for the inspector at your opening inspection. The conditions listed above are required to pass your opening inspection. Please include the file number and log number listed above on any documents submitted. Your plans are only approved as submitted to us *and* with the above conditions. Changes in proposed operational procedures may require additional equipment and certain changes may require a new plan review. If you decide to change the menu, equipment or operation, please notify us immediately.

If you have not yet applied for your food service license, you should submit your Application for Food Service License and the correct fees to Tallahassee now. Please make sure to submit the completed application and fees early enough to receive your license by your planned opening date. You can find licensing information and forms online at www.myfloridalicense.com. A license fee calculator is located on our website at www.myfloridalicense.com/dbpr/hr/licensing/foodfees.html, which can help you determine the cost of your food service license.

For help with the license application process, to have an application mailed to you, or if you have any questions, please call our Customer Contact Center at 850.487.1395 between the hours of 8:00 a.m. and 6:00 p.m., Monday through Friday.

For faster processing, please attach a copy of this letter to the *top* of your completed license application along with a check or money order for the appropriate license fee. Submit the packet to: Department of Business and Professional Regulation, Division of Hotels and Restaurants, 1940 N. Monroe Street, Taliahassee, FL 32399-0783. Before mailing, please make sure you have completed the license application, paid the correct license fee and attached a copy of this letter to the top of your licensing packet. An incomplete or incorrect licensing packet will delay the licensing process.

Your plan approval is valid for one year from the date of this letter, so you must license the proposed establishment before then. If your plan approval expires after a year, you may have to complete the plan

Phone: 850.487.1395 Fax: 850.414.2949 1940 NORTH MONROE STREET TALLAHASSEE, FLORIDA 32399-1011

review process including fee payment again. If you are no longer in charge of this project, please forward this letter to the correct person or company.

When the construction is complete, please call our Customer Contact at 850.487.1395 to request contact from an inspector to schedule an opening inspection. Be ready to provide the file number located at the top of this letter. Please allow 1-2 days for the inspector to contact you to schedule the inspection.

Good luck with your enterprise!

Sincerely,

in mather

Re: Division of Hotels and Restaurants Plan Review License Type: 2010 PERMANENT FOOD SERVICE Application No. 605719

File No. 250334 Log No. HQ-12-204

Dear Plan Review Applicant:

We received your plan review application for FUJI JAPANESE BUFFET, 1415 WASHINGTON AVENUE. MIAMI BEACH, FL 33139. We will contact you if more information is needed.

To avoid delays in obtaining your food service license, you may wish to submit your Application for Food Service License and the correct fees to Tallahassee now. Please make sure to submit the completed application and fees early enough to receive your license by your planned opening date. You can get licensing information and forms online at <u>www.MyFloridaLicense.com/dbpr/hr</u>. You can also call our Customer Contact Center at 850.487.1395 to have an application mailed to you. A license fee calculator is located on our website at www.myfloridalicense.com/dbpr/hr/licensing/foodfees.html, which can help you determine the cost of your food service license.

For quicker processing, please attach a copy of this letter to the *top* of your completed application along with a check or money order. Submit the packet to: Department of Business and Professional Regulation, Division of Hotels and Restaurants, 1940 N. Monroe Street, Tallahassee, FL 32399-0783.

Before mailing, please make sure that you have completed the license application, paid the correct license fee and attached a copy of this letter to the top of your licensing packet. An incomplete or incorrect licensing packet will delay the licensing process.

If you have any questions about the licensing process, you may call our Customer Contact Center at 850.487.1395 between 8:00 a.m. and 6:00 p.m., Monday through Friday.

Good luck with your enterprise!

Sincerely

Na'Tia Pilcher Staff Assistant

| NOTE: ALL RECEPTS. IN FOOD<br>PREPARATION AREAS SHALL BE GFI<br>PROTECTED.<br>PROVIDE NEW GFI RECEPS. AS<br>NEEDED ACCORDING TO THE CODE. |  |
|-------------------------------------------------------------------------------------------------------------------------------------------|--|

# **GENERAL ELECTRICAL NOTES:**

All work shall be in accordance with the Florida Building Code, N.E.C. and other applicable codes and standards.

2. The contractor is responsible for evaluating field conditions by visiting the site prior to commencing/bidding work.

3. The contractor shall satisfactorily repair/replace equipment or part of structure damaged as a result of his work. Surfaces and finished areas shall be restored to match adjacent areas. 4. All material removed shall be disposed of as directed by owner.

5. All wiring indicating existing is based on original contract documents and is to be verified by contractor at job site.

6. All conductors shall be copper except as noted, all conductors shall be run in conduit. 7. All materials shall be U.L. approved.

...New typewritten panel tally shall be furnished after job is completed reflecting all changes and additions. 9. All branch circuits shall be properly phase balanced.

10. Contractor shall seal all openings with a fire seal similar to 'OZ' flameseal.

11. Fuses shall be dual element, time delay type unless otherwise noted.

12. Risers are diagrammatic only. They do not show every bend required for installation.

13. This drawing is a guide for the installation of electrical service. The electrical contractor is responsible in providing a functional system.

14. All cables shall be run without splices except otherwise indicated.

15. All pull and junction boxes shall be accessible at all times.

16. Exact point and methods of connection shall be determined in field.

17. All work shall be done in a neat and workmanlike manner.

18. All underground conduit runs to have a minimum 24" cover.

19. All exterior electrical equipment shall be weather proof or shall be in a weather proof enclosure.

20. All trenching, backfilling, settings of post lights, and concrete bases for post lights shall be done by electrical contractor.

21. All outside lighting shall be installed in conduits and provide pull boxes as required.

22. Pole lighting shall be as shown and capable to withstand winds of up to 120 miles/hr. and designed to support three lighting fixtures maximum, see plans. Poles shall comply with N.E.C. section 410-15.

23. All underground "PVC" shall be provided with galvanized rigid elbows and adapters as required inside building.

24. Conduit running under paving shall be 24 inches bellow finished grade, minimum.

25. Coordinate all telephone work with local phone company engineer prior start of construction, notify contract engineer of any discrepancies encountered. Provide wiring to conform/ w E1A/TIA-570 Standard.

26. Coordinate all power utility work with local power company engineer and notify contract engineer of any discrepancies encountered.

27. Provide empty conduits as required for telephone system.

28. Provide all required connections for other trades. 29. Coordinate all outlet locations with building architectural features. Coordinate with architect, engineer and contractor. 30. Indoor conduits shall be EMT.

31. Outdoor undergraound conduits shall be sschedule 40 pvc under paved areas. It shall be encased in concrete. Minimum cover shall be 24 inches.

32. all receptacles in bathrooms shall be protected by GROUND FAULT CIRCUIT INTERRUPTER (GFI). 33. Aluminum cable isn acceptable if intslled with N.E.C. and local codes. 34. All utility outlets to be G.F.C.I. outlets.

35. All electrical items supplied under cooking line exhaust hood to shut down with shunt trip by others), tied in to hood system. Electrical engineer to confirm compliance to all codes. 36. All junction boxes, disconnects, etc. shall be installed so as not to interfere with the performance, function, or placement of the equipment.

37. Starters, relays, heaters and switches required for exhaust and supply fans are to be provide and installed by electrical contractor. 38. Electrical contractor shall interconnect dishmachine with dishmachine exhaust fan.

Interconnection shall link operation of exhaust fan to operation of dishmachine so that both units run simultaneously at all time.

39. Walk-in Cooler/Freezer compressors: a) interconnect to blower coil in freezer.

b) interconnect betwenn timer and contractor.

c) interconnect betwenn timer and pressure control solenoid. d) interconnect betwenn contractor and compressor fan.

e) interconnect betwenn terminal and contractor to blower coil in freezer box.

40. Walk-in Cooler/Freezer box: a) Al lelectrical conduit to ne run on top (exterior) of walk-in box.

41. Walk—in Freezer box:

a) connect drain line heater to terminal strip.

b) connect pan heater to terminal strip. c) connect door heater to terminal strip.

42. Unless provided by the manufacturer, all light bulbs for food service equipment to be provided by electrical contractor.

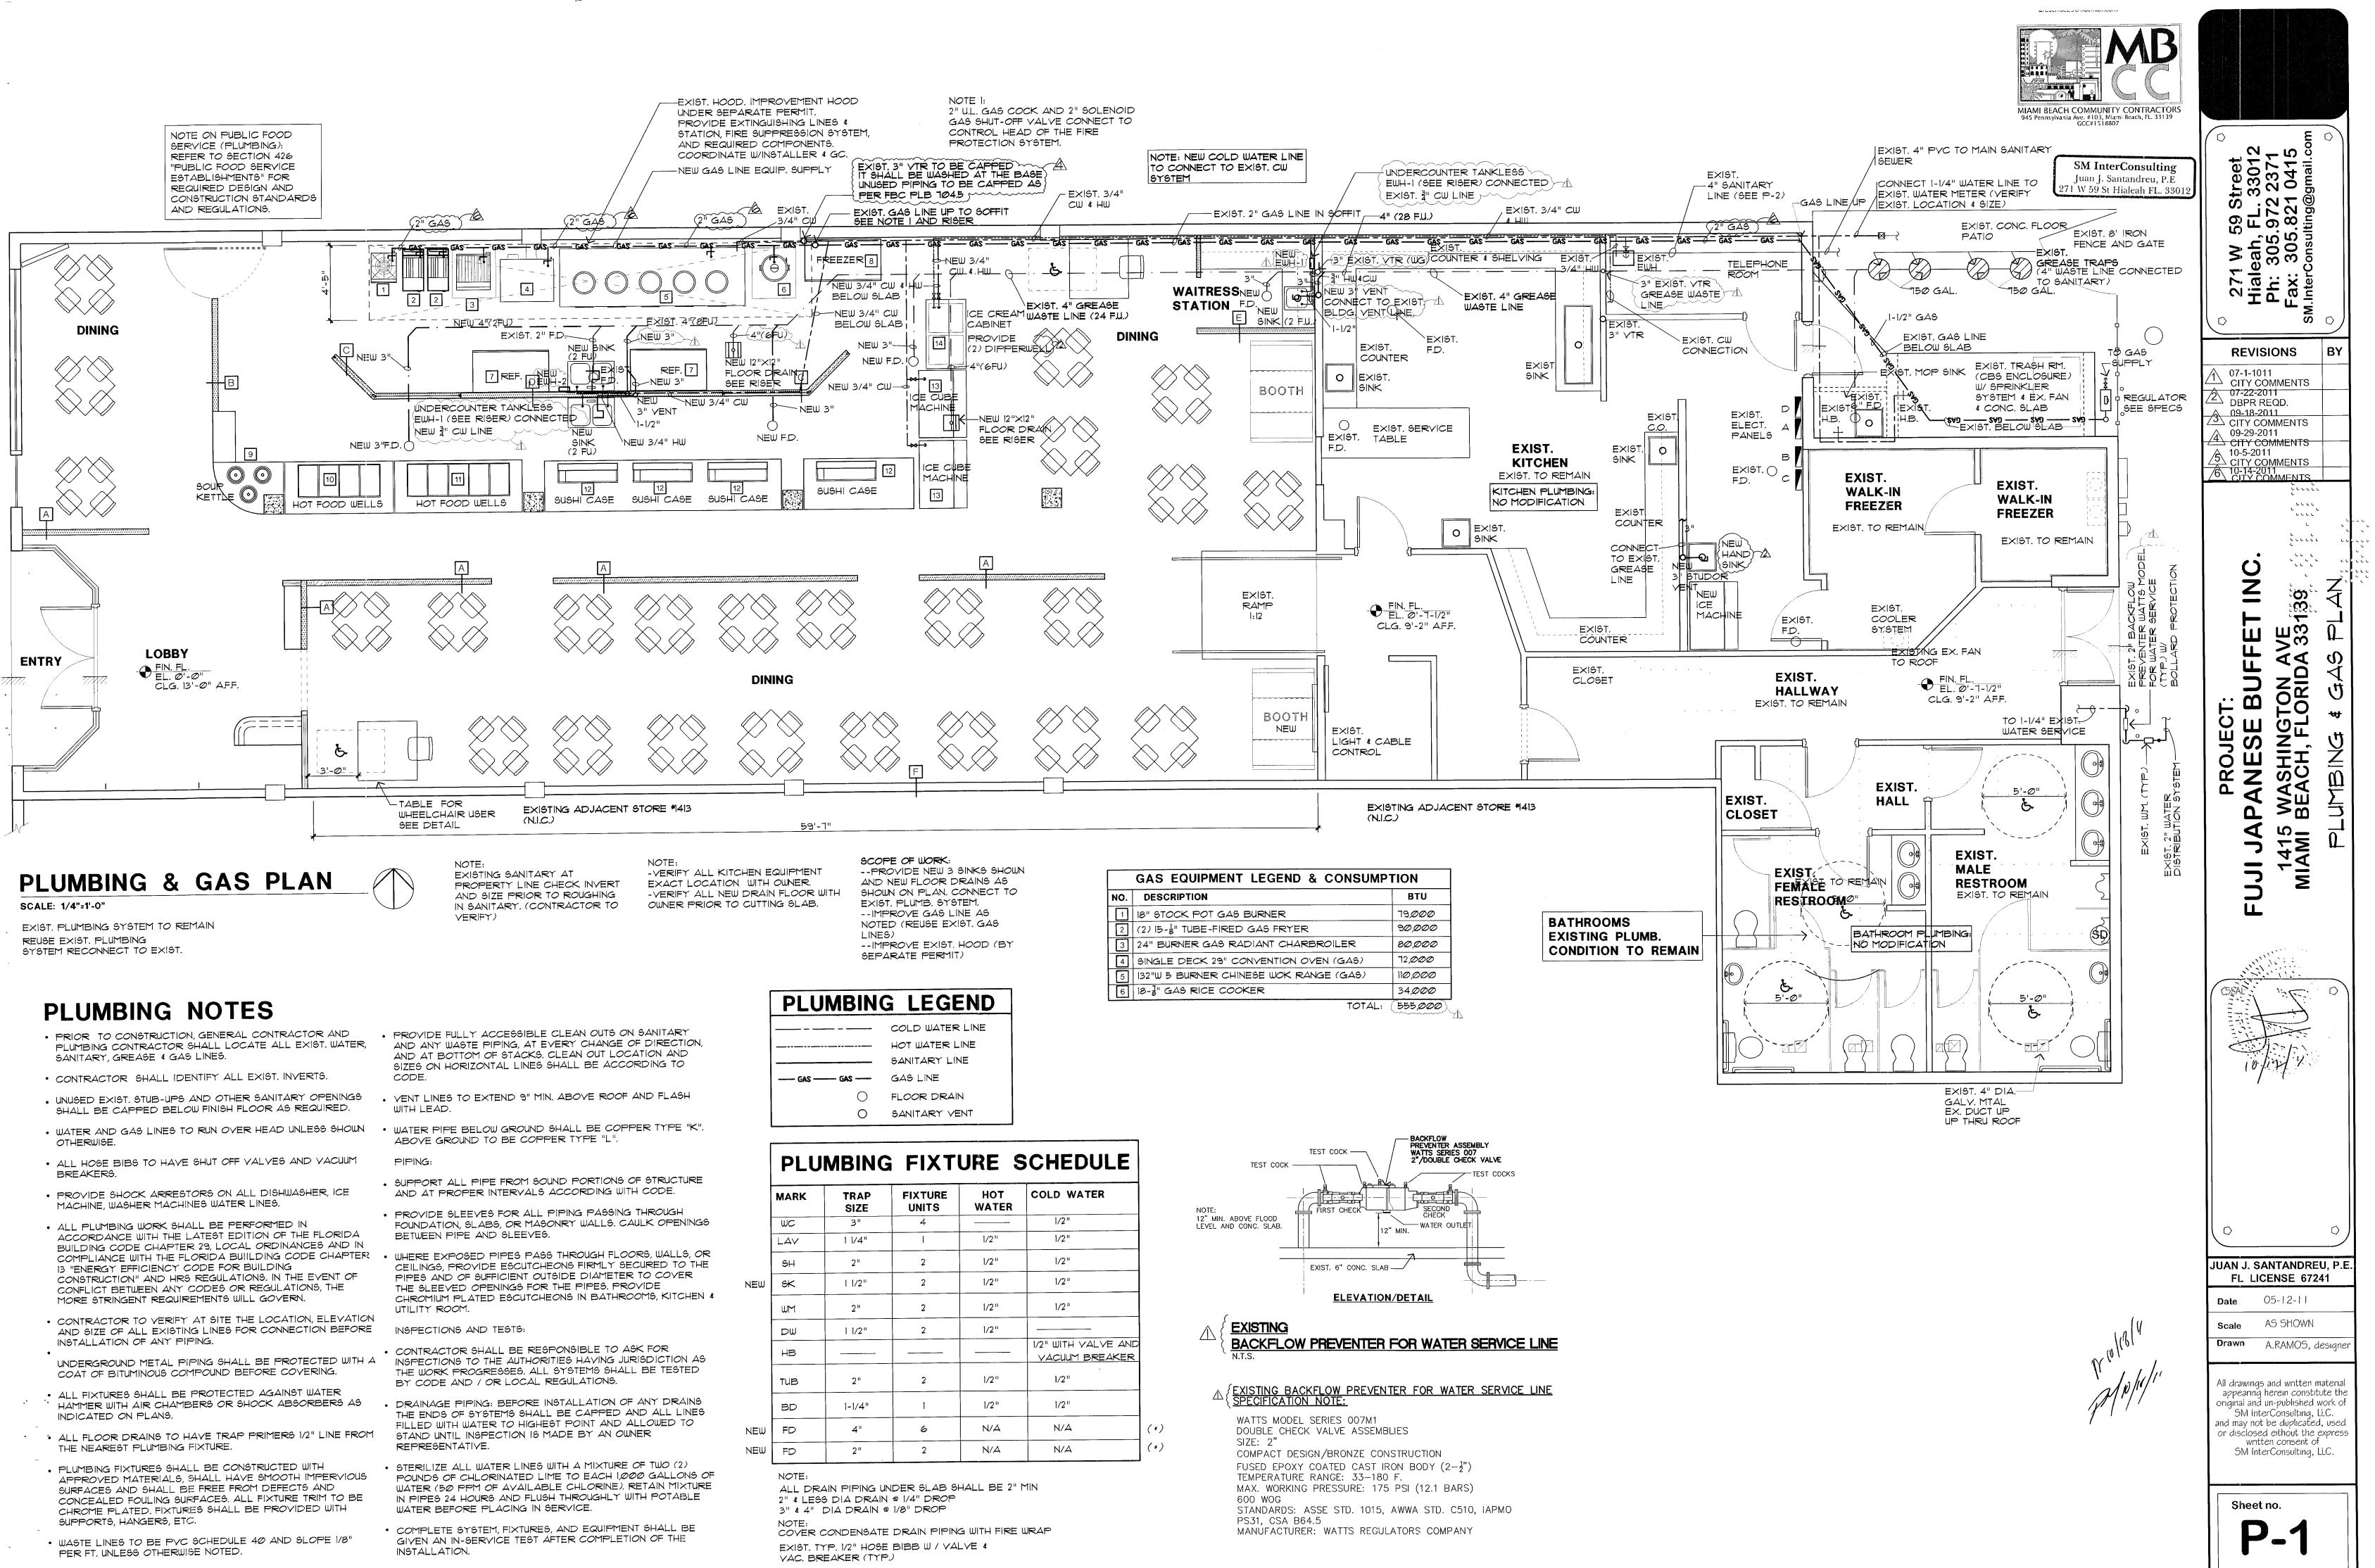

43. Unless otherwise noted, all dimension shown on this plan are from the finished floor, ceiling of walls to the centerline of the rough-ins.

44. Check all equpment for proper voltage, phase, and current before connection to circuits. 45. All fuses shall have a 200,000 amps rms symmetrical interrupting rating unless otherwise noted. 46. Fuses rated 0 to 600 apms shall be as follow: a) circuit breaker panel protection-U.L. class rk-1 d element (bussmann "low-peak" or equal)., b) motor circuit portection-U.L. rk-5, dual element "bussman "fusetron" or equal.
