Mr. Bogomilsky,

This email should serve as a confirmation that FPL is in fact:

1. designing the relocation of the streetlight pole, with permission from the City of Miami Beach and
2. designing the undergrounding of the service to the Jewish Learning Center

There has been an engineer change in mid-project but I will remain your point of contact for now.

Best regards,

Frank

CAUTION - EXTERNAL EMAIL

Gentlemen

Its been about a month since we met in the rear of the property on 41st st. Can we get some sort of letter from FPL that we are working on the proposals to relocate the pole and bury our power feed. We are submitting tomorrow for our variance which will be heard in November and the City is asking for something to that fact.

sincerely

Steve Bogomilsky
