STAFF ANALYSIS

Staff would preface this analysis by noting that substantial redevelopment of the subject property was completed in 2007, which included the restoration of the existing 'Contributing' structures and the construction of a new 4-story building at 1052 Ocean Drive.

The applicant is currently requesting a minor modification to the following condition contained within the Historic Preservation Board Order File No. HPB0716-0048, dated November 8, 2016:

- I.C.1.g. No exterior speakers, except as may be required for Fire or Building Code/Life Safety Code purposes may be permitted within the outdoor terrace.*

The applicant is currently requesting that the Board delete this condition to allow for the placement of exterior speakers within the ground level outdoor terrace of the Non-Contributing building located at 1052 Ocean Drive.

The hardwired speakers are proposed to be installed at the terrace ceiling and two movable speakers are proposed to be placed on the terrace floor. All speakers are setback at least 20'-0" from the front property line and will not have an adverse impact on the character of the surrounding historic district.

At the time of writing of this report, the applicant has an application (PB17-0171) pending review by the Planning Board for a Conditional Use Permit (CUP) for the introduction of a Neighborhood Impact Establishment and an Outdoor Entertainment Establishment. This application scheduled to be heard on February 27, 2018. The Planning Board will review the request with regard to important issues related to the operations of the venue, including parking, traffic, deliveries, noise, sanitation and security. As such, staff would recommend that any proposed outdoor speakers not required by the Fire, Life Safety or Building Code, be subject to the approval of a CUP for an outdoor entertainment establishment and that in the event an approved CUP for outdoor entertainment is abandoned, suspended or revoked, that the subject speakers be removed from the exterior of the property.

RECOMMENDATION

In view of the foregoing analysis, staff recommends the application be **approved** subject to the conditions enumerated in the attached draft Order, which address the inconsistencies with the aforementioned Certificate of Appropriateness criteria.
