Subject: PALM AND HIBISCUS ISLANDS NEED PERMANENT GENERATORS FOR THE NEW WATER PUMPS
Date: Monday, April 16, 2018 8:35:22 PM

Dear Mayor and Commissioners,

I hope that all of you are well. It has come to my attention through one of my neighbors that Palm and Hibiscus Islands will not receive permanent generators for the now water pumps. This is a very scary thought as we currently loose power on an almost weekly basis especially during storms. We have been without power at least two or three times during the past two or three weeks and once for over eight hours. Can you imagine what could happen during and unexpected storm which as you all know, that we do get from time to time.

I am sure that since none of you live on the two islands you may not be familiar with what happens. I am hopeful that being alerted by myself and I am sure a few other residents you will make the common sense decision to make sure that we receive the permanent generators needed. Thank you for taking the time to read this and doing the right thing.

Sincerely yours,
Mark Block
