

# WEST LOTS NORTH BEACH

### A COMMUNITY INPUT DISCUSSION

# MIAMIBEACH

DOVER, KOHL & PARTNERS

# WHAT ARE WEST LOTS?

West Lots are eight

city-owned lots

(half-blocks)

between

79<sup>th</sup> & 87<sup>th</sup> Street

on Collins

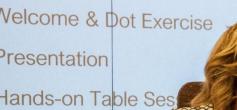

across from North Beach

Oceanside Park

# APRIL 30 TO MAY 3, 2018: PUBLIC WORKSHOP

WHAT DOES PLAN NOBE SAY ABOUT WEST LOTS?

Table Presentation

75+ attendees

# WHAT WE HEARD: A TOP 5

1) Grow with consensus in ways that enhance North Beach's uniqueness.

- 2) Provide active uses to support the passive park.
  - What's the big idea for West Lots? North Beach Oceanside Park.
- 3) Higher-height (if needed) and revenue-generating uses, on edges.

4) Showcase resilience and sustainability

5) Don't lose parking but improve transit access

### Provide active uses to support the passive park.

Other temporary uses which could become permanent (if they are popular)

Market Hall

Splash Pad

**Botanical Gardens** 

Outdoor Dining

Art Space

Monstrum art/play parks

Bike shop/coffee shops

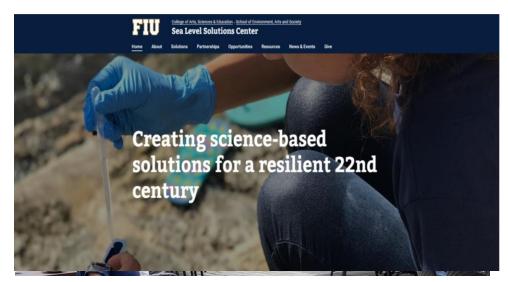

#### Showcase resilience

Resilience labs

Stormwater Bio-Park in Atlanta

Innovation Campus

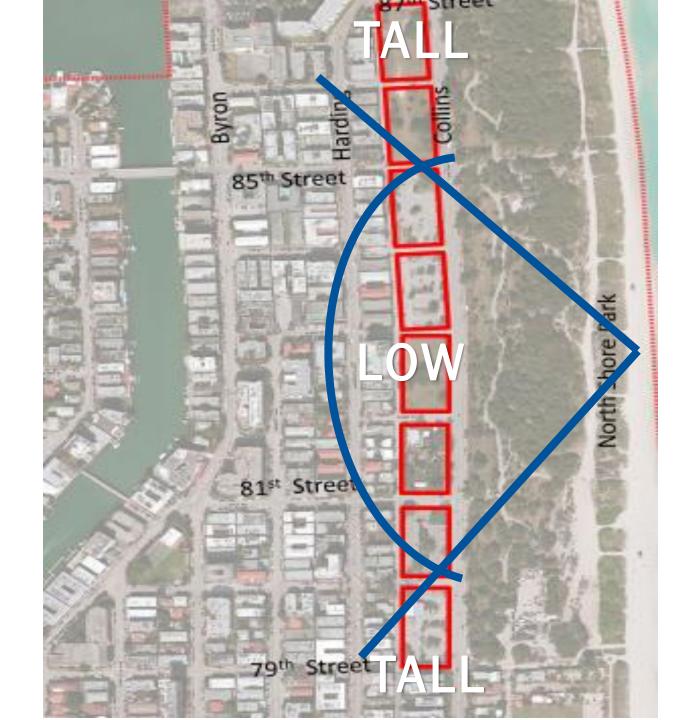

Water Square in Rotterdam

Other temporary uses which could become permanent (if they are popular)

### WHAT WE HEARD: THE VIEW FROM THE BEACH

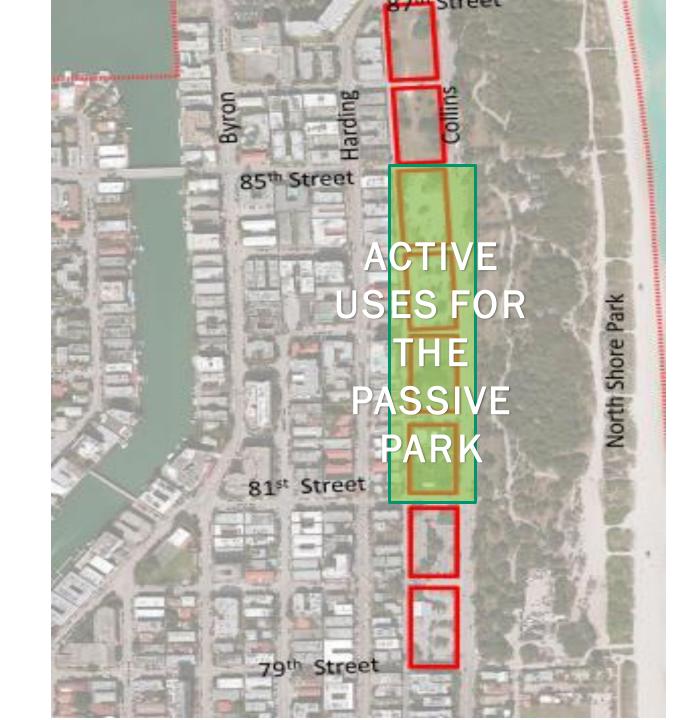

### WHAT WE HEARD: THE VIEW FROM THE BEACH

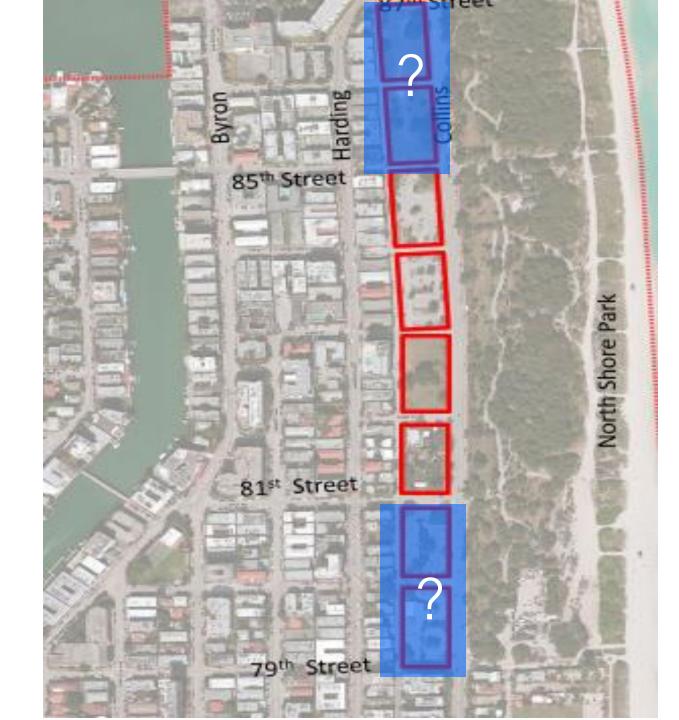

### WHAT WE HEARD: ACTIVE USES FOR THE PASSIVE PARK

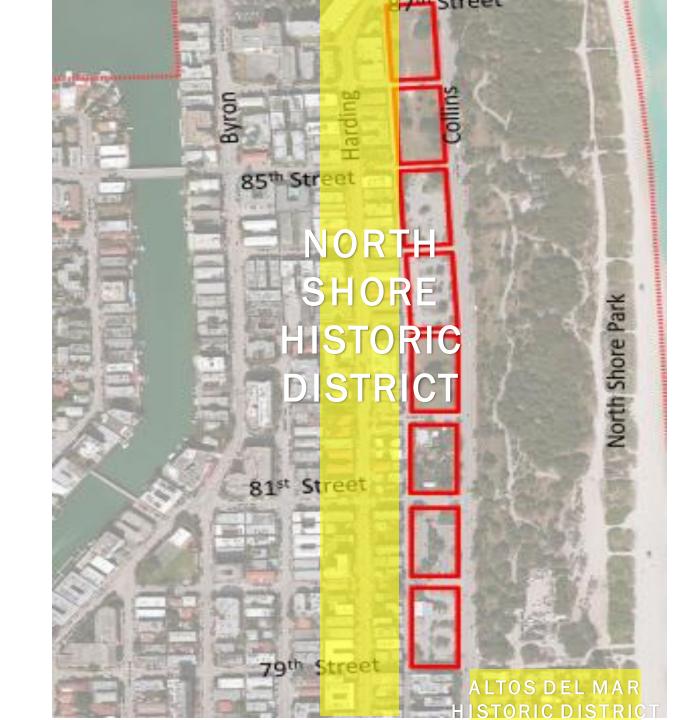

Low-impact, active, civic/social uses which compliment the passive park on the mid-blocks.

### WHAT WE HEARD: TALLER NEAR THE EXISTING CENTERS

### WHAT WE HEARD: EVERYTHING MUST RESPECT THE HISTORIC DISTRICTS

## **OVERALL MAP**

#### Lot 8 Community Eco-Tech Center & Teen Center

# OVERALL ECONOMIC ANALYSIS SUMMARY

- City will issue an RFP for any parcel with commercial viability
- RFP will provide any constraints for social mission, as needed
- Results do not include capital stack or financing
- Ground leases set at 6-7.5% of estimated or appraised land value
- NOI for ground lease calculation based on private sector NOI only
- Land value uses a discount rate between 8-15%, depending on use and risk
- Until final sizing, costs and other factors that are currently unknown are determined, ground leases reflect industry knowledge and judgment, but
   SUMMASWING widely in value should key inputs change

- Assumed lease rates are net to the developer. rates paid by users would be the developers rate plus ground lease plus expenses passed through (insurance, taxes, utilities and CAM)
- The financial and economic analysis evaluates cashflow generation potential for the lots as developed in concert with the city and public. With the exception of Lot 8 (the Teen and Technology Center), the land values and associated potential ground lease values reflect the net present value of the cashflows, not appraised values

#### \*The analysis is not final, additional validation is required to finalize the figures.

## LOT 1 Parking Garage & Cafe

# LOT 1 Parking Garage & Cafe

#### **KEYASSUMPTIONS**

- City issues an RFP for identified uses for a fee developer for the parking garage and developer owner for wrapped uses
- City retains parking structure and operations; private developer leases land for wrapped uses from city
- Parking assumptions are stalls \* 365 days \* 24 hours/day \* \$1 hour \* 50% utilization

| LAND USE TYPES                                   | LOT 1   |

## LOT 5 Eco-hotel & City Market

Lot Area

Total Open Space (sq ft)

Open space percentage

Total Building Square Footage

#### **KEYASSUMPTIONS**

- City issues an RFP to develop a hotel; likely separate RFP for food hall
- Assumed to be sold for NPV of uses proposed
- Because hotel is very small (25 rooms) and development \_ intensity low, land value is low. A larger hotel (possibly including coffee and bike retail) would increase land value
- Hotel operations based on 29 rooms \* 365 days \* \$225/night \* 75% occ; rooms expense and G&A estimated at 50% of achieved revenue

#### **KEYASSUMPTIONS**

- City issues an RFP for identified uses for a fee developer.
- City retains land and building ownership. Leases buildings to operators for below market rates (as close to market as possible)
- Concessions building may pay highest rents, innovation center \_ may as well. Tropical garden is highly specialized, may need subsidy for feasibility.

# LOT 7 Bohemian Village

#### **KEYASSUMPTIONS**

- City issues an RFP for identified uses for a developer/owner
- City retains land. Developer owns buildings. Buildings are leased to operators at market rate.
- This parcel doesn't pencil out under likely development costs or potential rental rates
- Will need additional iterations to find a path to viable financials
- Operations may require city subsidies to be commercially attractive to developers
