## PLANNING DEPARTMENT

### Staff Report & Recommendation

### Design Review Board

TO: DRB Chairperson and Members

DATE: October 02, 2018

FROM: Thomas R. Mooney, AICP  
Planning Director

SUBJECT: DRB18-0278  
**3136 Prairie Avenue**

**DRB18-0278, 3136 Prairie Avenue.** The applicant, Arbor Holdings Corp., is requesting Design Review Approval for the construction of a new two-story residence to replace an existing two-story architecturally significant pre-1942 residence ~~including one or more waivers, and a variance to exceed the maximum elevation for allowable projections in required yards.~~

#### **RECOMMENDATION:**

Approval with conditions

#### **LEGAL DESCRIPTION:**

Lot 4 of Block 5 of MidGolf Subdivision 1<sup>st</sup> Addition, according to Plat thereof as recorded in Plat Book 7, Page 161 of the Public Records of Miami-Dade County, Florida.

#### **SITE DATA:**

Zoning: RS-4  
Future Land Use: RS  
Lot Size: 9,750SF  
Lot Coverage:  
Existing: 3,422 SF / 35%  
Proposed: 2,437 SF / 24.9%  
Maximum: 2,925 SF / 30%  
Unit size:  
Existing: 3,422 SF / 35%  
Proposed: 4,821 SF / 49.4%  
Maximum: 4,875 SF / 50%  
2<sup>nd</sup> Floor to 1<sup>st</sup>: N/A < 25%  
Height:  
Proposed: 23'-10" flat roof  
Maximum: 24'-0" flat roof

Grade: +3.67' NGVD  
Flood: +8.00' NGVD  
Difference: 3.84' NGVD  
Adjusted Grade: +5.835' NGVD  
30" (+2.5') Above Grade: +5.92' NGVD  
First Floor Elevation: +9' NGVD (BFE +1' FB)

#### **EXISTING PROPERTY:**

Year: 1925  
Architect: O.M. Bristol  
Vacant: No  
Demolition: Full

#### **SURROUNDING PROPERTIES:**

East: One-story 1931 residence  
North: One-story 1929 residence  
South: Two-story 1926 residence  
West: Alton Road Golf Course

#### **THE PROJECT:**

The applicant has submitted plans entitled "Prairie House Design Review Board", as prepared by **Carino and Co. Architecture and Design**, dated, signed and sealed on August 03, 2018.

The applicant is proposing to construct a new two-story residence on a parcel on the eastern side of Alton Road Golf Course that will replace an existing two-story architecturally significant pre-1942 residence.

The applicant is requesting the following waiver(s):

- ~~1. The second floor's physical volume exceeds 70% of the first floor in accordance with Section 142-105(b)(4)(c).~~

The applicant has corrected the zoning legend pertaining to the proposed lot coverage and as such the advertised waiver (for 70% second floor ratio) which was part of the original application request is no longer needed.

The applicant is requesting the following variance(s):

- ~~1. A variance to exceed by 1.18' the maximum elevation of 9.82' NGVD for allowable structures in required yards in order to construct access cantilevered walkways up to 11.0' NGVD at 12'-8" setback from the south side property line.~~

- ~~• Variances requested from:~~

~~**Sec. 142-1132. Allowable encroachments within required yards.**~~

~~*(c) Projections: In all districts, every part of a required yard shall be open to the sky, except as authorized by these land development regulations. The following may project into a required yard for a distance not to exceed 25% of the required yard up to a maximum projection of 6'-0", unless otherwise noted.*~~

~~*(6) Porches, platforms and terraces (up to 30" above the elevation of the lot).*~~

On June 25, 2018 the City Commission adopted the "understory ordinance", which includes modifications to the single-family regulations that primarily expanded conventions regarding non-air-conditioned 'understory space', created by new, elevated single-family residences. Prior to this, porches, platforms and terraces were allowable yard projections, but restricted in height to only up to 30 inches above the grade elevation of the lot. Since single family homes are now required to be constructed well above grade elevation, the following additional language was adopted, in order to better facilitate access to homes with higher first floor elevations.

**Among the code changes, were amendments to Section 142-1132. Within single-family zoning districts, such projections and encroachments may be located up to the first habitable floor elevation and include stairs, steps, ADA-compliant ramps and related walkways, not exceeding 5'-0" in width, which provide access to all porches, platforms, terraces and the first floor when elevated to meet minimum flood elevation requirements, including freeboard.**

As such, the advertised variance which was part of the original application request is no longer needed.

**COMPLIANCE WITH ZONING CODE:**

A preliminary review of the project indicates that the application, as proposed, appears to be inconsistent with the following sections of the City Code, in addition to the requested variances:

1. The maximum height of fences along the side property lines is limited to 7'-0" as

measured from grade of 3.67' NGVD.

The above noted comments shall not be considered final zoning review or approval. These and all zoning matters shall require final review and verification by the Zoning Administrator prior to the issuance of a Building Permit.

**COMPLIANCE WITH DESIGN REVIEW CRITERIA:**

Design Review encompasses the examination of architectural drawings for consistency with the criteria stated below with regard to the aesthetics, appearances, safety, and function of the structure or proposed structures in relation to the site, adjacent structures and surrounding community. Staff recommends that the following criteria are found to be satisfied, not satisfied or not applicable, as hereto indicated:

1. The existing and proposed conditions of the lot, including but not necessarily limited to topography, vegetation, trees, drainage, and waterways.  
**Satisfied**
2. The location of all existing and proposed buildings, drives, parking spaces, walkways, means of ingress and egress, drainage facilities, utility services, landscaping structures, signs, and lighting and screening devices.  
**Satisfied**
3. The dimensions of all buildings, structures, setbacks, parking spaces, floor area ratio, height, lot coverage and any other information that may be reasonably necessary to determine compliance with the requirements of the underlying zoning district, and any applicable overlays, for a particular application or project.  
**Satisfied**
4. The color, design, selection of landscape materials and architectural elements of Exterior Building surfaces and primary public interior areas for Developments requiring a Building Permit in areas of the City identified in section 118-252.  
**Satisfied**
5. The proposed site plan, and the location, appearance and design of new and existing Buildings and Structures are in conformity with the standards of this Ordinance and other applicable ordinances, architectural and design guidelines as adopted and amended periodically by the Design Review Board and Historic Preservation Boards, and all pertinent master plans.  
**Satisfied**
6. The proposed Structure, and/or additions or modifications to an existing structure, indicates a sensitivity to and is compatible with the environment and adjacent Structures, and enhances the appearance of the surrounding properties.  
**Satisfied**
7. The design and layout of the proposed site plan, as well as all new and existing buildings shall be reviewed so as to provide an efficient arrangement of land uses. Particular attention shall be given to safety, crime prevention and fire protection, relationship to the surrounding neighborhood, impact on contiguous and adjacent Buildings and lands, pedestrian sight lines and view corridors.

**Satisfied**

8. Pedestrian and vehicular traffic movement within and adjacent to the site shall be reviewed to ensure that clearly defined, segregated pedestrian access to the site and all buildings is provided for and that all parking spaces are usable and are safely and conveniently arranged; pedestrian furniture and bike racks shall be considered. Access to the Site from adjacent roads shall be designed so as to interfere as little as possible with traffic flow on these roads and to permit vehicles a rapid and safe ingress and egress to the Site.

**Satisfied**

9. Lighting shall be reviewed to ensure safe movement of persons and vehicles and reflection on public property for security purposes and to minimize glare and reflection on adjacent properties. Lighting shall be reviewed to assure that it enhances the appearance of structures at night.

**Not Satisfied, a lighting plan has not been provided**

10. Landscape and paving materials shall be reviewed to ensure an adequate relationship with and enhancement of the overall Site Plan design.

**Satisfied**

11. Buffering materials shall be reviewed to ensure that headlights of vehicles, noise, and light from structures are adequately shielded from public view, adjacent properties and pedestrian areas.

**Satisfied**

12. The proposed structure has an orientation and massing which is sensitive to and compatible with the building site and surrounding area and which creates or maintains important view corridor(s).

**Satisfied**

13. The building has, where feasible, space in that part of the ground floor fronting a street or streets which is to be occupied for residential or commercial uses; likewise, the upper floors of the pedestal portion of the proposed building fronting a street, or streets shall have residential or commercial spaces, shall have the appearance of being a residential or commercial space or shall have an architectural treatment which shall buffer the appearance of the parking structure from the surrounding area and is integrated with the overall appearance of the project.

**Satisfied**

14. The building shall have an appropriate and fully integrated rooftop architectural treatment which substantially screens all mechanical equipment, stairs and elevator towers.

**Satisfied**

15. An addition on a building site shall be designed, sited and massed in a manner which is sensitive to and compatible with the existing improvement(s).

**Not Applicable**

16. All portions of a project fronting a street or sidewalk shall incorporate an architecturally appropriate amount of transparency at the first level in order to achieve pedestrian compatibility and adequate visual interest.  
**Satisfied**
17. The location, design, screening and buffering of all required service bays, delivery bays, trash and refuse receptacles, as well as trash rooms shall be arranged so as to have a minimal impact on adjacent properties.  
**Satisfied**
18. In addition to the foregoing criteria, subsection [118-]104(6)(t) of the City Code shall apply to the design review board's review of any proposal to place, construct, modify or maintain a wireless communications facility or other over the air radio transmission or radio reception facility in the public rights-of-way  
**Not Applicable**
19. The structure and site complies with the sea level rise and resiliency review criteria in Chapter 133, Article II, as applicable.  
**Not Satisfied; see below**

#### **COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA**

Section 133-50(a) of the Land Development establishes review criteria for sea level rise and resiliency that must be considered as part of the review process for board orders. The following is an analysis of the request based upon these criteria:

1. A recycling or salvage plan for partial or total demolition shall be provided.  
**Not Satisfied; A recycling plan shall be provided as part of the submittal for a demolition/building permit to the building department.**
2. Windows that are proposed to be replaced shall be hurricane proof impact windows.  
**Satisfied**
3. Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.  
**Satisfied**
4. Whether resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) will be provided.  
**Satisfied**
5. Whether adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact, including a study of land elevation and elevation of surrounding properties were considered.  
**Satisfied**
6. The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land.  
**Satisfied**

7. Where feasible and appropriate, all critical mechanical and electrical systems shall be located above base flood elevation.

**Satisfied**

8. Existing buildings shall be, where reasonably feasible and appropriate, elevated to the base flood elevation.

**Not Applicable**

9. When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.

**Not Applicable**

10. Where feasible and appropriate, water retention systems shall be provided.

**Not Satisfied; as part of the civil engineering design to be provided at time of permit.**

**STAFF ANALYSIS:**

**DESIGN REVIEW**

The applicant is proposing a new two-story residence to replace an existing two-story, architecturally significant pre-1942 residence. All waivers and variances previously advertised are no longer needed.

The proposed residence has been designed in a contemporary austere, simple style with floor levels delineated by wide overhangs that are clad in coral stone. Exterior terraces and balconies have been provided at the front and rear of the residence that emphasize the geometric manner of the residence, as well as enhance outdoor living.

The applicant has produced an attractive architectural design with simple finishes and a well-proportioned geometry that is sensitive to the neighborhood's overall context, as well as architecturally distinguishes itself from neighboring structures. Staff recommends the approval of the design.

**RECOMMENDATION:**

In view of the foregoing analysis, staff recommends **approval** of the design to the conditions enumerated in the attached Draft Order, which address the inconsistencies with the aforementioned Design Review criteria, Sea Level Rise criteria.

F:\PLAN\DRB\DRB18\10-02-2018\OCT 18 Staff Recommendations\DRB18-0278 3136 Prairie Avenue.OCT18.docx

**DESIGN REVIEW BOARD**  
**City of Miami Beach, Florida**

MEETING DATE: October 02, 2018

FILE NO: DRB18-0278

PROPERTY: **3136 Prairie Avenue**

APPLICANT: Arbor Holdings Corp

LEGAL: Lot 4 of Block 5 of MidGolf Subdivision 1<sup>st</sup> Addition, according to Plat thereof as recorded in Plat Book 7, Page 161 of the Public Records of Miami-Dade County, Florida.

IN RE: The Application for Design Review Approval for the construction of a new two-story residence to replace an existing two-story architecturally significant pre-1942 residence ~~including one or more waivers, and a variance to exceed the maximum elevation for allowable projections in required yards.~~

**ORDER**

The City of Miami Beach Design Review Board makes the following FINDINGS OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

**I. Design Review**

- A. The Board has jurisdiction pursuant to Section 118-252(a) of the Miami Beach Code. The property is not located within a designated local historic district and is not an individually designated historic site.
- B. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Design Review Criteria 9 in Section 118-251 of the Miami Beach Code.
- C. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Sea Level Rise Criteria 1 and 10 in Section 133-50(a) of the Miami Beach Code.
- D. The project would be consistent with the criteria and requirements of Section 118-251 and/ or Section 133-50(a) if the following conditions are met:
  - 1. Revised elevation, site plan, and floor plan drawings for the proposed new home at 3136 Prairie Avenue shall be submitted, at a minimum, such drawings shall incorporate the following:

- a. All fences shall comply with the maximum height allowance measured from CMB Grade.
  - b. The stone cladding proposed along the façades of the residence shall consist of a natural keystone or other natural stone, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - c. The final design details of the exterior materials and finishes shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board
  - d. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit, and shall be located immediately after the front cover page of the permit plans.
  - e. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in accordance with the plans approved by the Planning Department for Building Permit.
2. A revised landscape plan, prepared by a Professional Landscape Architect, registered in the State of Florida, and corresponding plans shall be submitted to and approved by staff. The species, type, quantity, dimensions, spacing, location and overall height of all plant material shall be clearly delineated and subject to the review and approval of staff. At a minimum, such plans shall comply with Chapter 26-Landscape Requirements of the Miami Beach Code and shall incorporate the following:
  - a. Prior to the issuance of a building permit, the applicant shall submit a tree protection plan for all trees to be retained on site. Such plan shall be subject to the review and approval of staff, and shall include, but not be limited to a sturdy tree protection fence installed at the dripline of the trees prior to any construction.
  - b. In order to identify, protect and preserve mature trees on site, which are suitable for retention and relocation, a Tree Report prepared by a Certified Tree Arborist shall be submitted for the mature trees on site.
  - c. Prior to any site demolition work, a tree protection fence following the City standard shall be installed for trees scheduled to remain subject to the review and approval of the City Urban Forester.
  - d. Any necessary root and tree branch pruning with a diameter at breast height (DBH) of 2" or greater shall be approved by the City Urban Forester prior to any tree work.
  - e. Any tree identified to be in good overall condition shall be retained, and protected in their current location if they are not in conflict with the

proposed home, or they shall be relocated on site, if determined feasible, subject to the review and approval of staff. A tree care and watering plan also prepared by a Certified Arborist shall be submitted prior to the issuance of a Building Permit or Tree Removal/Relocation Permit. Subsequent to any approved relocation, a monthly report prepared by a Certified Arborist shall be provided to staff describing the overall tree performance and adjustments to the maintenance plan in order to ensure survivability, such report shall continue for a period of 18 months unless determined otherwise by staff.

- f. Existing trees to be retained on site shall be protected from all types of construction disturbance. Root cutting, storage of soil or construction materials, movement of heavy vehicles, change in drainage patterns, and wash of concrete or other materials shall be prohibited.
- g. The proposed and existing trees located within the swale shall be subject to the review and approval of Green Space and CIP.
- h. Street trees shall be required within the swale at the front of the property if not in conflict with existing utilities, in a manner to be reviewed and approved by the Public Works Department.
- i. Any existing plant material within the public right-of-way may be required to be removed, as the discretion of the Public Works Department.
- j. A fully automatic irrigation system with 100% coverage and an automatic rain sensor in order to render the system inoperative in the event of rain. Right-of-way areas shall also be incorporated as part of the irrigation system.
- k. The utilization of root barriers and Silva Cells, as applicable, shall be clearly delineated on the revised landscape plan.
- l. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all backflow preventors and all other related devices and fixtures. The location of backflow preventors, Siamese pipes or other related devices and fixtures, if any, and how they are screened with landscape material from the right-of-way, shall be clearly indicated on the site and landscape plans, and shall be subject to the review and approval of staff.
- m. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all applicable FPL transformers or vault rooms. The location of any exterior transformers and how they are screened with landscape material from the right-of-way shall be clearly indicated on the site and landscape plans and shall be subject to the review and approval of staff.

- n. Prior to the issuance of a Certificate of Occupancy, the Landscape Architect or the project architect shall verify, in writing, that the project is consistent with the site and landscape plans approved by the Planning Department for Building Permit.

**In accordance with Section 118-262, the applicant, or the city manager on behalf of the City Administration, or an affected person, Miami Design Preservation League or Dade Heritage Trust may seek review of any order of the Design Review Board by the City Commission, except that orders granting or denying a request for rehearing shall not be reviewed by the Commission.**

**II. Variance(s)**

- A. The applicant filed an application with the Planning Department for the following variance(s):
  1. ~~A variance to exceed by 1.18' the maximum elevation of 9.82' NGVD for allowable structures in required yards in order to construct access cantilevered walkways up to 11.0' NGVD at 12' 8" setback from the south side property line.~~  
Variance withdrawn

**The decision of the Board regarding variances shall be final and there shall be no further review thereof except by resort to a court of competent jurisdiction by petition for writ of certiorari.**

**III. General Terms and Conditions applying to both 'I. Design Review Approval and 'II. Variances' noted above.**

- A. Upon the issuance of a final Certificate of Occupancy or Certificate of Completion, as applicable, the project approved herein shall be maintained in accordance with the plans approved by the board, and shall be subject to all conditions of approval herein, unless otherwise modified by the Board. Failure to maintain shall result in the issuance of a Code Compliance citation, and continued failure to comply may result in revocation of the Certificate of Occupancy, Completion and Business Tax Receipt.
- B. During construction work, the applicant will maintain gravel at the front of the construction site within the first 15'-0" of the required front yard to mitigate disturbance of soil and mud by related personal vehicles exiting and entering the site, and with an 8'-0" high fence with a wind resistant green mesh material along the front property line. All construction materials, including dumpsters and portable toilets, shall be located behind the construction fence and not visible from the right-of-way. All construction vehicles shall either park on the private property or at alternate overflow parking sites with a shuttle service to and from the property. The applicant shall ensure that the contractor(s) observe good construction practices and prevent construction materials and debris from impacting the right-of-way.
- C. If applicable, a Construction Parking and Traffic Management Plan (CPTMP) shall be approved by the Parking Director pursuant to Chapter 106, Article II, Division 3 of the City Code, prior to the issuance of a Building Permit.

- D. A recycling/salvage plan shall be provided as part of the submittal for a demolition/building permit, in a manner to be reviewed and approved by staff.
- E. All applicable FPL transformers or vault rooms and backflow prevention devices shall be located within the building envelope with the exception of the valve (PIV) which may be visible and accessible from the street.
- F. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit, and shall be located immediately after the front cover page of the permit plans.
- G. The Final Order shall be recorded in the Public Records of Miami-Dade County, prior to the issuance of a Building Permit.
- H. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.
- I. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
- J. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.
- K. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

IT IS HEREBY ORDERED, based upon the foregoing findings of fact, the evidence, information testimony and materials presented at the public hearing, which are part of the record for this matter, and the staff report and analysis, which are adopted herein, including the staff recommendations, which were amended and adopted by the Board, that the **application** is GRANTED for the above-referenced project subject to those certain conditions specified in Paragraph I, II, III of the Finding of Fact, to which the applicant has agreed.

PROVIDED, the applicant shall build substantially in accordance with the plans, entitled "Prairie House Design Review Board" as prepared by **Carino and Co. Architecture and Design** dated, signed and sealed on August 03, 2018, and as approved by the Design Review Board, as determined by staff.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board approved plans, this approval does not mean that such handicapped access is not required. When requesting Building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of Chapter 118 of the City Code, the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project shall expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with Chapter 118 of the City Code, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations of the City Code. Failure to comply with this **Order** shall subject the application to Chapter 118 of the City Code, for revocation or modification of the application.
