Letter of Intent

Mayor and Commissioners
City of Miami Beach
1700 Convention Center Dr.
Miami Beach, FL 33139

December 31, 2018

Dear honorable Mayor and Commissioners',

I hope this letter finds you well. I would like to introduce myself; (Carely Hernandez) via this brief letter with aim of being considered for former Commissioner Kristen Rosen Gonzalez position of group IV. My family has been proud to call Miami Beach home for over 30 years. I have called Miami Beach my permanent home for over 18 years. Being a loyal Miami Beach homeowner I can truly appreciate the importance of civic duty to the community.

It is easy to choose and call Miami Beach home my family and I have enjoyed and loved our time here. The expectation to grow with the future improvements invokes the desire to remain residence. My mind set has always been that those invested in the area (residence) can better and truly advocate tirelessly for our city's goals. Being a long time resident has allowed for a birds eye view to the progress and the direction that has taken years to build on thanks to the leadership of past prodigious city leaders setting the tone and path for the future. Miami Beach has a unique integrity that I have found to be what makes it desired tourist location. Miami Beach moves toward an evolving future and attempts to maintain its historical features.

My personal objective would be not to alter the current path but advance the scheme of inhabitant involvement and contribution something that this boundless city has a head start on over other cities around the country not just in Florida. This is something that our current leaders such as yourselves should be gratified about.

Miami Beach is made up of three main components its residence, its infrastructure and its visitors; keeping these three components in mind is the best way to keep Miami Beach a grand city. The residence need a safe environment to enjoy and develop their families. Keeping the education of our children and continuing the development of resources to Miami Beach High school and Nautilus Middle school. Paying attention to the best way to bring concepts of environmentally friendly developments not only to our community common areas but, future residential developments. Maintaining a close eye on incoming developers and their concepts for the future of Miami Beach is important. We need to make sure that those that come to conduct business in our home share the same common values as do we the residential community. Finally, those that come to visit and are temporary residences of Miami Beach our tourist; we want a safe fun space for these visitors we are welcoming them into our home and want them to understand that as permanent residence we enjoy sharing our space and happiness.

I have seen this great city evolve into a superior place than it already was. Now ask not what my city has done for me but, what I have to offer my city. My education has been of the scientific discipline mainly working with sustainability and the progression of communities in South Florida to develop availability to depleting resources and research. I currently have a Bachelor of Science in Biopharmaceutical with a minor in Biotechnology. Currently I am working toward a Doctorate of Pharmacy. Working towards this degree has allowed me to work closely with my community in a variation of retail pharmacies in Miami Beach allowing me to have day to day interaction with our neighbors. It has been so fulfilling and I hope to continue in both building a better Miami Beach through a strong commitment of civic duty and pride and love for my city and neighbors. Miami Beach truly is a melting pot of diversification of religion and ethnicities that make the fabric of this growing and great place to live and work which we call home; Miami Beach. Thank you for your consideration

Sincerely,

Carely Hernandez
