STAFF ANALYSIS

The City, under the supervision of the Parks & Recreation Department, is proposing to introduce additional fitness equipment within Lummus Park. The equipment is proposed to be installed between 8th and 9th Streets. This portion of Lummus Park, commonly referred to as “Muscle Beach”, currently contains various fitness equipment including parallel bars, pull-up bars and fitness benches set into sand. Two additional structures entitled “Leopard Tree” and “MyBeast” manufactured by My Equilibria were installed in 2017 (HPB17-0092).

The additional equipment currently proposed is a performance locker intended to provide a weight training component. In addition to enhancing current outdoor fitness opportunities, the unique design of this piece will allow for secure storage of mobile fitness apparatus currently located within this area of Lummus Park. The locker, a modified shipping container manufactured by BeaverFit, is proposed to be painted white or a similar light neutral color and will not contain any general advertising.

Staff has no objection to the introduction of this fitness locker which has been located in a manner which should not have any adverse impact on the surrounding historic district. Further, this much needed training component will serve to increase recreational activities for residents and visitors within Lummus Park, a goal identified in the Ten Point Plan for Ocean Drive adopted by the Mayor and City Commission in 2016.

RECOMMENDATION

In view of the foregoing analysis, staff recommends the application be **approved** subject to the conditions enumerated in the attached draft Order, which address the inconsistencies with the aforementioned Certificate of Appropriateness criteria.
