STAFF ANALYSIS

The applicant is proposing to install an 11'-0" x 30'-0" LED screen mounted to the ceiling within the Collins Avenue entrance of the Z Ocean Hotel. The screen, which will display a continuous video of underwater ocean imagery, is setback approximately 14'-0" from the west face of the building and should not be directly visible from vehicular traffic traveling along Collins Avenue.

Staff has no objection to the installation of the LED screen, as it has been designed in a manner with a minimal structural frame and reinforces the oceanic theme of the hotel. Staff would further note that this element creates a guest experience similar to that of the Ocean Drive entrance which provides for views through the ceiling into the pool.

RECOMMENDATION

In view of the foregoing analysis, staff recommends the application be **approved** subject to the conditions enumerated in the attached draft Order.
