Dear Sirs

If fire station project prevail on 6 St as Commissioners voted; the least city Can do is to accept redesign project keeping Lapidus Building and work around existing Building not demolish an archit et gem plus lots of Greens around; city should consider moving playground to a city public land as There are Space on the flamingo park; old public library but I Think Best if city Can rebuilt a New playcenter at flamingo park as to option paying 30 K to the Rich / famous gloria stheven family Plus city should consider another public land for a New senior community center and old public library that already have a Building appears a Good option.

Regards, Gloria del
Rio
