Miami Beach risks losing an important part of not just its local history, but of US history if this demolition is allowed to proceed. The loss of this landmark structure and its replacement with a new oversized home will have a long-term negative impact on the community. A report by the City of Miami Beach states that the property meets TWO of the objective criteria for historic designation. The City of Miami Beach, Historic Preservation Board, Design Review Board, and the current owners should do EVERYTHING in their power to stop the demolition of this structure and designate this home as historic in order to save it for future generations. Thousands of petition signers agree. <https://chnng.it/MSyLjp2x5r> Thank you for your consideration.
