Ms. Deborah Tackett Miami Beach Planning Department Miami Beach City Hall 1700 Convention Center Dr. Miami Beach, FL 33139

Re: Crown Castle Letter of Intent for the Installation of a Distributed Antenna System ("DAS") within Historic Districts in the City of Miami Beach

Dear Ms. Tackett:

Crown Castle NG East LLC ("Crown Castle") seeks to place a DAS network in the City of Miami Beach (the "City"), which will consist of placing fiber optic cable (underground) and stealth nodes (utility poles containing telecommunications infrastructure) within the right of way. In order to meet the network coverage objectives of our client, Crown Castle must place some of this infrastructure within historic districts in the City. This letter will serve as support for each of those applications.

## Description of the Project

As stated above, Crown Castle seeks to place a DAS network in Miami Beach in order to enhance the network capacity of its client, which is a wireless carrier. The carrier has significant capacity issues in Miami Beach. In order to solve these capacity issues, several DAS nodes must be placed in Historic Districts within the City.

Below is a brief description of the locations:

1638 Lenox Ave. Miami Beach, FL 33139
1640 Pennsylvania Ave. Miami Beach, FL 33139
360 Lincoln Rd. Miami Beach, FL 33139
1 18 <sup>th</sup> St. Miami Beach, FL 33139
1260 Euclid Ave. Miami Beach, FL 33139
1060 Euclid Ave. Miami Beach, FL 33139
501 10 <sup>th</sup> St. Miami Beach, FL 33139

5_15	200 8 <sup>th</sup> St. Miami Beach, FL 33139
5_16	1090 8 <sup>th</sup> St. Miami Beach, FL 33139
5_17	910 6 <sup>th</sup> St. Miami Beach, FL 33139

## Description of the Equipment

Crown Castle has worked with the staff of Miami Beach Planning Department for two years to find a design for DAS nodes which would both meet the network objectives of its client and meet the city's aesthetic and safety concerns about placing DAS nodes in Historic Districts. After much discussion and the recent passage of a new telecommunications ordinance by the City Commission addressing the installation of such technology in the City, Crown Castle has developed a stealth node which will function as both a street light pole and a telecommunications pole. An existing street light will be removed and replaced with a functioning DAS stealth street light pole which will not require additional ground equipment installed in the right of way.

#### Conclusion

Crown Castle has worked diligently with City staff to meet all of their concerns about placing DAS infrastructure within the city, including the Historic Districts. Crown Castle believes it has satisfied all of the City's concerns and accordingly requests that the Historic Preservation Board approve its applications for the installation of DAS infrastructure within certain Historic Districts in the City.

Sincerely,

Wanda Melton
