

To: Historic Preservation Board of Miami Beach

I Martin Urruela, President of Krenwal Corporation (Co-Op), on behalf of our members, request a permit to have a mural painted on the north facade of our building located at 220 Collins Ave. The members of our cooperative believe that adding a public art piece will enhance the surrounding neighborhood. The North wall of the building abuts the Miami Beach public vegetable garden and has traditionally been painted all white. It is our belief that an artistic mural will add to the environment and feeling the garden was originally set out to create.

We have hand-selected well-known local artist Jona Cerwinski for the task. Jona has created numerous public works of art over the past several years, many of which were commissioned directly by the City of Miami.

The cooperative will cover all expenses, and hope that the Board approves what we believe will be a great addition to our neighborhood.

Thank you for your time and consideration.

Regards,

Martin Urruela

President

Krenwal Corporation (Co-Op)
