

**DESIGN REVIEW BOARD**  
**City of Miami Beach, Florida**

MEETING DATE: November 1, 2016

FILE NO: DRB0516-0027

PROPERTY: **1435 Bay Road and 1340 Flamingo Way**

APPLICANT: TBD Buttonwood LLC and TBD Harbor 265 LLC

LEGAL: Lots 1 and 2, Block 79B of "Alton Beach Realty Cos. Bay Front Subdivision", According to the Plat Thereof, as Recorded in Plat Book 16, at Page 1, of the Public Records of Miami-Dade County, Florida.

IN RE: The Application for Design Review Approval for the construction of a new five-story residential building, including variances to reduce the required width for a drive aisle, to reduce the required setback from a structure to drive aisle, and to eliminate the residential use required facing a street for the ground floor containing parking spaces.

**ORDER**

The City of Miami Beach Design Review Board makes the following FINDINGS OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

**I. Design Review**

- A. The Board has jurisdiction pursuant to Section 118-252(a) of the Miami Beach Code. The property is not located within a designated local historic district and is not an individually designated historic site.
- B. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Design Review Criteria 2, 3, 5, 8, 9, and 17 in Section 118-251 of the Miami Beach Code.
- C. The project would remain consistent with the criteria and requirements of Section 118-251 if the following conditions are met:
  1. Revised elevation, site plan, and floor plan drawings for the proposed new development at 1435 Bay Road and 1340 Flamingo Way shall be submitted, at a minimum, such drawings shall incorporate the following:
    - a. The final design and details including samples of the proposed vertical balcony elements shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.

- b. All roof top lighting shall be located below the parapet level, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - c. All roof-top fixtures, air-conditioning units and mechanical devices shall be clearly noted on a revised roof plan and shall be configured to be as close to the center of the roof as possible and screened from view on all sides, in a manner to be approved by staff.
  - d. The final design and details including samples of the proposed exterior ground floor screening shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - e. All exterior handrails and support posts shall incorporate a flat profile. The final design details, dimensions material and color of all exterior handrails shall be made part of the building permit plans and shall be subject to the review and approval of staff consistent with the Design Review Criteria and/or the directions from the Board.
  - f. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit, and shall be located immediately after the front cover page of the permit plans.
  - g. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in accordance with the plans approved by the Planning Department for Building Permit.
2. A revised landscape plan, prepared by a Professional Landscape Architect, registered in the State of Florida, and corresponding site plan, shall be submitted to and approved by staff. The species type, quantity, dimensions, spacing, location and overall height of all plant material shall be clearly delineated and subject to the review and approval of staff. At a minimum, such plan shall incorporate the following:
- a. Prior to the issuance of a building permit, the applicant shall submit a tree protection plan for all trees to be retained on site. Such plan shall be subject to the review and approval of staff, and shall include, but not be limited to a sturdy tree protection fence installed at the dripline of the trees prior to any construction.
  - b. Trees identified on the 'Existing Tree Survey' and 'Tree Disposition Plan' as "Existing Live Oak tree to remain" shall be designated to remain in their existing location and be protected. No construction or excavation shall be permitted within the dripline of these trees, and the hardscape plans shall be modified subject to staff review and approval.
  - c. All landscape areas abutting driveways and parking areas shall be defined by raised curb, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
- 

- d. A fully automatic irrigation system with 100% coverage and an automatic rain sensor will be required in order to render the system inoperative in the event of rain. Right-of-way areas shall also be incorporated as part of the irrigation system.
- e. The utilization of root barriers and/or Silva Cells, as applicable, shall be clearly delineated on the revised landscape plan.
- f. The applicants shall install street trees on all sides of the project consistent with the City's Street Tree Master Plan, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board, and root barriers shall be installed along the sidewalk in conjunction with structural soils.
- g. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all backflow prevention devices. Backflow prevention devices shall not be permitted within any required yard or any area fronting a street or sidewalk, unless otherwise permitted by the Land Development Regulations. The location of all backflow prevention devices, and how they are screened from the right-of-way, shall be clearly indicated on the site and landscape plans and shall be subject to the review and approval of staff. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all post-indicator valves (PIV), fire department connections (FDC) and all other related devices and fixtures, which shall be clearly indicated on the site and landscape plans.
- h. Prior to the issuance of a Certificate of Occupancy, the Landscape Architect for the project architect shall verify, in writing, that the project is consistent with the site and landscape plans approved by the Planning Department for Building Permit.

**In accordance with Section 118-262, the applicant, or the city manager on behalf of the City Administration, or an affected person, Miami Design Preservation League or Dade Heritage Trust may seek review of any order of the Design Review Board by the City Commission, except that orders granting or denying a request for rehearing shall not be reviewed by the Commission.**

## **II. Variance(s)**

- A. The applicant filed an application with the Planning Department for the following variance(s):
  1. A variance to eliminate the residential use requirement facing a street for the first floor of a building containing parking spaces in order to provide landscaping facing Bay Road for a new residential building
  2. A variance to reduce 10'-0" from the minimum required width of 22'-0" for a two-way driveway, in order to construct a driveway with a width of 12'-0".

3. A variance to reduce 4'-0" from the minimum required width of 22'-0" interior drive aisle in order to provide an interior drive aisle of 18'-0" for a limited portion of the drive.
- B. The applicant has submitted plans and documents with the application that satisfy Article 1, Section 2 of the Related Special Acts, allowing the granting of a variance if the Board finds that practical difficulties exist with respect to implementing the proposed project at the subject property.

The applicant has submitted plans and documents with the application that also indicate the following, as they relate to the requirements of Section 118-353(d), Miami Beach City Code:

That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district;

That the special conditions and circumstances do not result from the action of the applicant;

That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, buildings, or structures in the same zoning district;

That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of this Ordinance and would work unnecessary and undue hardship on the applicant;

That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

That the granting of the variance will be in harmony with the general intent and purpose of this Ordinance and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare; and

That the granting of this request is consistent with the comprehensive plan and does not reduce the levels of service as set forth in the plan.

- C. The Board hereby **Approves** the Variance request(s), and imposes the following conditions based on its authority in Section 118-354 of the Miami Beach City Code:
1. Substantial modifications to the plans submitted and approved as part of the application, as determined by the Planning Director or designee, may require the applicant to return to the Board for approval of the modified plans, even if the modifications do not affect variances approved by the Board.

**The decision of the Board regarding variances shall be final and there shall be no further review thereof except by resort to a court of competent jurisdiction by petition for writ of certiorari.**

**III. General Terms and Conditions applying to both 'I. Design Review Approval and 'II. Variances' noted above.**

- A. Where one or more parcels are unified for a single development, the property owner shall execute and record a unity of title or a covenant in lieu of unity of title, as may be applicable, in a form acceptable to the City Attorney.
- B. In the event Code Compliance receives complaints of unreasonably loud noise from mechanical and/or electrical equipment, and determines the complaints to be valid, even if the equipment is operating pursuant to manufacturer specifications, the applicant shall take such steps to mitigate the noise with noise attenuating materials as reviewed and verified by an acoustic engineer, subject to the review and approval of staff based upon the design review or appropriateness criteria, and/or directions received from the Board.
- C. If required, the applicant shall obtain a revocable permit from the Public Works Department for the proposed street improvements and paving within the public right-of-way, subject to approval of the City Commission, prior to the issuance of a building permit. Prior to the issuance of a building permit for any work approved by the Design Review Board, as it relates to the subject development project, the applicant shall enter into and record a restrictive Maintenance Agreement and Covenant running with the land, form approved by the Miami Beach City Attorney and Planning Director and Public Works Director, which runs with the land, confirming the applicant's agreement to design, permit, construct and maintain the proposed sidewalk and paving, in perpetuity, and confirming public access to such sidewalk, in accordance with the conditions herein. The restrictive covenant shall be recorded in the public records, at the expense of the applicant.
- D. Site plan approval is contingent upon meeting Public School Concurrency requirements. Applicant shall obtain a valid School Concurrency Determination Certificate (Certificate) issued by the Miami-Dade County Public Schools. The Certificate shall state the number of seats reserved at each school level. In the event sufficient seats are not available, a proportionate share mitigation plan shall be incorporated into a tri-party development agreement and duly executed prior to the issuance of a Building Permit.
- E. A Construction Parking and Traffic Management Plan (CPTMP) shall be approved by the Parking Director pursuant to Chapter 106, Article II, Division 3 of the City Code, prior to the issuance of a Building Permit.
- F. The final building plans shall meet all other requirements of the Land Development Regulations of the City Code.
- G. The Final Order shall be recorded in the Public Records of Miami-Dade County, prior to the issuance of a Building Permit.
- H. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.

- I. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
- J. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.
- K. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

IT IS HEREBY ORDERED, based upon the foregoing findings of fact, the evidence, information, testimony and materials presented at the public hearing, which are part of the record for this matter, and the staff report and analysis, which are adopted herein, including the staff recommendations which were adopted by the Board, that the Application for Design Review approval is GRANTED for the above-referenced project subject to those certain conditions specified in Paragraph I, II, III of the Findings of Fact, to which the applicant has agreed.

PROVIDED, the applicant shall build substantially in accordance with the plans, entitled "Bay House" as prepared by **DN'A Design and Architecture**, dated, September 7, 2016, and as approved by the Design Review Board, as determined by staff.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order. No building permit may be issued unless and until all conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board-approved plans, this approval does not mean that such handicapped access is not required. When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of Chapter 118 of the City Code; the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project should expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with Chapter 118 of the City Code, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations of the City Code. Failure to comply with this **Order** shall subject the application to Chapter 118 of the City Code, for revocation or modification of the application.

Dated this 10<sup>th</sup> day of March, 2017.

DESIGN REVIEW BOARD  
THE CITY OF MIAMI BEACH, FLORIDA

BY   
DEBORAH J. TACKETT
