

# Request for Information for Compact Multi-Exercise Equipment

## Specifications

Interested parties should submit information on equipment options which meet the goals of:

- Expanding fitness opportunities on rights of way, street ends and small public spaces.
- Equipment should be platform based and have an approximate footprint of 15' X 10'.
- Equipment should be attractive to residents and visitors and inspire physical fitness.
- Options for display boards for advertising and public service announcements may be considered, however submittals must include a non-advertising/display option.
- Emphasis should be given to those products that are unique or iconic in nature.
